BARN INFERNO. Roaring flames are shown destroying the large barn at the Columbiana County Home, three miles west of Lisbon Monday, causing total loss of the structure along with equipment and stored materials, estimated at \$58,000.

County Home Cattle Barn To Be Rebuilt

Fire Loss Figured At \$47,500 With \$11,000 Contents

LISBON — Columbiana County commissioners said they will rebuild the County Home cattle barn destroyed in a 58,500 fire at noon Monday.

Commissioners said the barn was insured for \$47,500 with G. Cecil Rauch, termed it a total loss. They also have \$11,000 insurance on the contents, but are now checking this.

The milking equipment in the new milkhous built several years ago was reported in good shape and probably can be used again. The roof of this building was burned off. A hay baler, fence wire, 700 bales of hay, 700 bales of straw, seed potatoes, feed, a conveyor wagon and miscellaneous tools were destroyed.

The fire apparently started in the granary and had a good start before it was discovered by Ira Wilson, a resident, who alerted Russell Phillips, superintendent. He was unable to see any fire from the main building, so he ran up to the barn and observed the fire in the granary. The fire raged out of control in a very few minutes.

Home personnel, trained recently for just such an emergency, acted quickly and evacuated all buildings except the concrete block hospital farthest from the blaze. They also got all the cattle out of the building away from the fire, with the assistance of crews of the Riley Construction Co., which is building the new barn.

Ambridge Man Gives Up Solicitor's Duties

BEAVER — Beaver County commissioners today accepted the resignation of Atty. Eugene A. Caputo of Ambridge as county solicitor, a position he has held for eight years.

Arthur S. Herskovitz of Aliquippa was named to replace Caputo. Commissioner Arthur Pettibon abstained from voting on the resignation.

Caputo gave no reason in his letter; however, he said there was a combination of reasons, including a heavy work load, low pay and other factors.

Known As 'Southeastern' Water-Sewage District Created

Common Pleas Court Judge Raymond S. Buzzard Monday night signed the final court order creating the new Southeastern Water and Sewage District for St. Clair and parts of Liverpool Townships.

Judge Buzzard ordered Prosecutor G. William Brokaw to make the journal entry establishing the district.

Approximately 30 persons attended last night's public hearing with no written objections being made to the temporary plans, as provided by law.

GEORGE Bloomgren, East Liverpool engineer, discussed present plans for buying water from the city and erecting two standpipes in the Oakmont and Glenmoor areas, with a pump hookup between.

He showed two plans — A-plan, if the board's request for \$343,000 is approved by the Federal Accelerated Public Works program, and B-plan, in case no federal aid is forthcoming.

He and the board have estimated the area contains 2,845 lots and 875 tracts. If no federal aid is obtained, the board expects to charge \$80 per lot, but he expressed the belief this would be near the top fee for any person for construction of the water line in front of their land.

The charge would be less for acreage, unless it was converted to lots.

There would be a hookup fee and the board expects to charge \$1 per thousand gallons of water up to 10,000 gallons, 80 cents per thousand between 10,000 and 20,000 and 60 cents per thousand for 30,000 gallons up for any one quarter.

THESE FIGURES are only estimates but the board and Bloomgren said they feel that costs will not go much above these figures. A Board of appraisors will have to be set up to decide on distances and how much the water will benefit the owners of the land.

Several landowners questioned Bloomgren and board members as to definite costs of the project and if they already have a good well and sewer system would they have to hook in to the new water line.

They were told they would not but they would be required to pay for the line in front of their property, but not until they tapped into the line and used the water.

John M. Duffy of Calcutta, vice president of the board, read a letter from the Ohio Department of Health reporting on its inspection of the area concerning the water and sewage problems and said it favored construction of the new district.

THE construction of the sewer district was not discussed at the meeting because the board

Tax Slashes Scheduled In 1965 And '66

Excise Drop Slated Next Year, Income The Following Year

WASHINGTON (AP) — The administration's long-range plans call for a cut in excise taxes in 1966 and another reduction in income taxes the following year, informed sources said today.

They said there is a strong possibility President Johnson will announce this tentative timetable during next fall's presidential campaign.

There have been a few public hints of further tax revision. On April 28, Johnson said he could "see another tax cut a few years down the road" if the \$12-billion income tax reduction enacted this year stimulated the economy into providing enough revenue to balance the budget.

There are signs that the administration would consider clipping almost every category of excise taxes, although there may be both congressional and administration opposition to trimming some earmarked taxes, such as gasoline and vehicle taxes used for federal-state road programs.

In February, Secretary of the State Douglas Dillon said at a news conference that reductions in excise taxes could come in 1965, but he indicated that such cuts might not be pushed until 1966 or later.

During Senate consideration of the tax cut bill some senators demanded reduction in excises along with the income tax reduction. Proponents of the tax reduction agreed then to future hearings on the excise taxes.

Death Delays Vote Recount For Hancock

Work on recounting of votes cast in Hancock County's primary May 12 has been postponed indefinitely by the death Saturday morning of County Commissioner Robert E. Roach of New Cumberland.

Services will be held this afternoon at 2:30 at the United Presbyterian Church in the county seat for Mr. Roach, 56, who died after a short illness.

Mr. Roach and the two other county commissioners, William C. Graham and James Finley, were to have started work this morning at 9 on recounts asked by five candidates.

Commissioners Graham and Finley, both Democrats, are expected to meet later this week to consider appointing a new commissioner from Clay District to succeed Mr. Roach.

The appointee would serve until November, when the party executive committee would probably select a candidate to vie for the unexpired four-year term of Mr. Roach.

Laotian Neutralists Open Attack, Drive Communists Back

Red Forces Halted Short Of Objective

2-Thirds Of Lost Sector Regained, Reports Disclose

VIENTIANE, Laos (AP)—The Laotian neutralists claimed today that part of their army had launched a counterattack and driven the Communists back in the Muong Kheung sector northwest of the Plaine des Jarres.

Gen. Amkha Soukhavong, neutralist military adviser to Premier Souvanna Phouma, said the Communists had been stopped 12 miles short of their next objective, Muong Soui, on a main east-west highway from the plain.

Unofficial reports told of clashes only seven miles from Muong Soui.

Amkha said a battalion of neutralist infantry, 19 tanks and 8 armored cars, which had been routed from their headquarters at Muong Kheung, on the northwest fringe of the strategic plain recaptured two-thirds of the sector.

Prince Souvanna warned the National Assembly that if Muong Soui fell, the Communists would threaten the royal capital of Luang Prabang and Vang Vieng on the main road south to Vientiane.

Some 2,500 right-wing troops were spread out in a defense line above Borikhane, about 25 air miles east of Vientiane. The village is the last major right-wing defense point between another Communist force and the rightist-controlled town of Pakxane, on the Mekong River border with Thailand.

The Communists captured the town of Tha Thom 12 days ago and are using it as a base for a move against Borikhane less than 20 miles away.

Souvanna told the assembly he rejected an invitation by the Pathet Lao chief, Prince Souphanouvong, to go to his Khang Khay headquarters for peace talks. Souvanna said he asked Souphanouvong to meet with him at Luang Prabang.

Diplomatic sources said Britain is considering issuing invitations for a consultation here of ambassadors from the 14 nations of the Geneva conference on Laos to discuss steps to avoid further deterioration of the situation.

Communist countries are demanding a full-fledged General conference be reconvened and are not expected to take part in local consultations.

New Trouble Delays Street-Oiling Project

New difficulty — this time a truck breakdown — today caused a postponement until later in the week in the scheduled start of a citywide oiling program of unimproved streets to lay summer dust.

Tentatively set to begin today, the work was set back when the administration was notified by the Do-Mar Road Oil Co. of Lisbon that a fault in the brake system of its delivery truck meant it could not bring the first material to East Liverpool from Cleveland today, as promised.

The Lisbon concern has a contract to provide up to 20,000 gallons of road oil at 10 cents a gallon. Using funds from the city income tax, the oil will be spread at no cost to property owners.

First Oak Glen Class Set

Two boys — one with a perfect scholastic record — have won top honors in the first Senior Class of Oak Glen High School in Pughtown, Principal E. Russell Slack announced today.

Valedictorian is Paul David Rosso, 18, who attained a perfect 4.0 scholastic average, and salutatorian is Glenn Paul Myres.

THE HONOR students will lead the 185-member Senior Class — first for the new consolidated school in the Hancock County system — in commencement exercises June 12 at 8 p. m. in the high school gymnasium.

The valedictorian is a son of Mr. and Mrs. Andrew Rosso, 909 2nd Ave., New Cumberland, who has been a member of the band for six years and was president as a junior. He was president of the Spanish Club during his junior year, a member of

Maryland Demonstration

Guardsman Shot In Race Violence

CAMBRIDGE, Md. (AP)—One National Guardsman was shot and three others were injured Monday night in a new flareup between integrationist demonstrators and troops using bayonets and tear gas to disperse them.

State police said several demonstrators also were injured in the clash as bullets, bricks and bottles whizzed through the air in the city's Negro district.

Hundreds of whites milled along the edge of the district, heckling guardsmen and shouting taunts at integrationists across the street.

Further disorder was averted when Brig. Gen. George M. Gelston clamped a curfew on the town and guardsmen moved shoulder to shoulder down the main street to clear it of spectators. Ironically, named Race

Street, it divides the Negro section of about 4,000 from the 8,000 white population.

None of Monday night's injuries was described as serious, but the clash was the third outbreak in two weeks and the most serious in nearly a year. The guard was ordered into Cambridge by Gov. J. Millard Tawes last summer after a series of shootings and arsons. It has been there since.

In the latest eruption, a Negro guardsman was wounded in the left shoulder by a small-caliber bullet. Another, also Negro, suffered a burned hand when a grenade he was holding exploded.

A plastic fragment from the grenade hit the gas mask of an officer, cutting his face. A rock hit a fourth serviceman, possibly fracturing an arm.

Leaders Set To Introduce Amendments

Hope Package Will Lead To Senate OK Of Rights Measure

WASHINGTON (AP)—Senate leaders plan to introduce today the package of amendments they are counting on to win passage of a revised civil rights bill.

Republican Leader Everett M. Dirksen announced Monday after a fifth and final GOP conference on the proposed changes that they would be ready for introduction late today—the 64th day of Senate debate on civil rights.

He also predicted that the votes will be available to shut off a Southern filibuster against civil rights legislation. "I believe we can get cloture," he said. "And I think we have to have cloture now."

Dirksen said the changes will be discussed thoroughly and ample time will be allowed for rebuttal by Southern senators, who already have pronounced the package completely unacceptable.

Some senators have said an attempt will be made the second week in June to get the two-thirds vote needed to invoke cloture and shut off the Dixie oratory that has blocked action on the House-passed bill.

Dirksen said this may be a little early.

He noted that a jury trial amendment has been before the Senate for three weeks without a final vote.

Some Stores Set Late Hours On Wednesday

Because of the Memorial Day holiday Saturday, some East Liverpool stores will skip their regular Wednesday noon closing and remain open until 5 p. m.

The East Liverpool Merchants Association explained it set no policy on hours tomorrow, leaving the schedule a matter of individual choice. So some stores will close at noon, as usual.

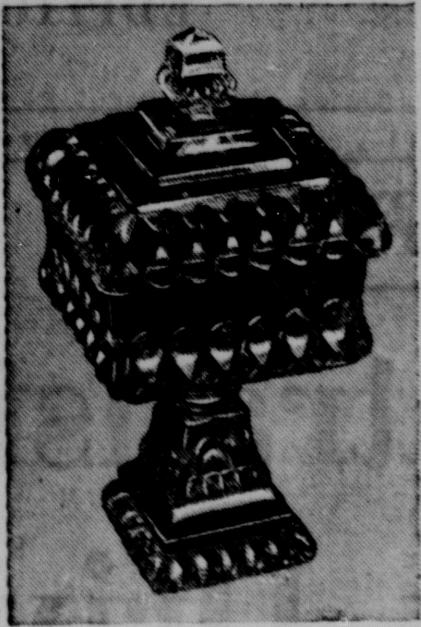

Except in holiday weeks and in the Christmas shopping season, stores generally observe a noon closing on Wednesday.

Reminder Given On Deadline For Street Petitions

Safety - Service Director Robert E. Vodrey today issued a reminder that Monday, June 15, is the deadline for filing petitions for low-cost asphalt surfacing of unimproved streets.

The deadline was recommended by Council more than a month ago to allow the city adequate time to complete details of the annual program, award a contract for the work and assure that it will be completed before cold fall weather arrives.

As in the past, the city will pay 50 per cent of the cost of improving any secondary street, providing its share out of income tax revenue.

Vodrey said two new petitions have been filed in the last week, bringing to five the number presented to his office to date. The new petitions seek improvement of Lang St. between St. Clair Ave. and Curry St. and a section of Haywood St. in Beechwood.

Defeat Is A Pleasure

Throughout Premier Khrushchev's lengthy visit to Egypt, American nail-biting continued because the Soviet Union had landed the responsibility of building a high dam at Aswan.

The history of this project was reviewed with the purpose of showing that the late John Foster Dulles, when he was secretary of state, had backed away from the project in a fit of pique and left the way open for Moscow to edge the United States out of the picture.

The United States is still helping Egypt — some \$750 million in the last 10 years. But historical credit for the Aswan dam will go to Russia, which is spending a great deal of money to ingratiate itself with Egypt's President Nasser and his admirers in Africa and elsewhere.

WE DOUBT that this will be a winning proposition for Premier Khrushchev and the Russians, no matter how frantically they work at it. Americans speak with experience in this regard. Money may buy time but it never buys friends.

Demonstration Of Panic

It will be a long time before Peruvian police are tempted again to fire tear gas bombs into a crowd in an enclosure. That much has been gained from the tragedy in a Lima sports stadium that took more than 300 lives after a riot following a soccer game was halted by tear gas.

The crowd panicked. Spectators piled up on other spectators at the exits. One of the best known and most often forgotten human behavior patterns asserted itself: When otherwise normal human beings go crazy with fear they are as brainless as turkeys in a thunderstorm.

Their thin veneer of civilized behavior disappears. They are as irresponsible as any of the lower forms of life in the animal kingdom when panic grips them.

Police trying to stop a riot with tear gas bombs in an enclosure were guilty of something as thoughtless as an antic repeated time after time in the United States — the grim frolic in which a police car is driven in hot pursuit of a panicky malefactor who may end up with the death and injury of half a dozen innocent bystanders on his record.

The blame really belongs to the police, who ignored what can be expected to happen in a hot-pursuit chase through crowded streets.

It will be a long time before Peruvian police shoot tear gas into a crowd that will panic and pile up at the exits. But

The Egyptians will not be grateful — no more so than any of the nationalities the United States has helped. When the time comes to show gratitude for past favors, Egyptians will want to know what their benefactor has done for them lately.

They will claim Russia is trying to possess them; that it is only helping itself when it goes through the motions of helping them.

They will learn to dislike Russians in Egypt for the Aswan project and eventually they will blame Russia for everything they don't like about the Aswan dam.

THIS IS one time when defeat on a proposition to spend money is a pleasure.

When we think of how many hundreds of millions more the United States would be spending if it had the Aswan dam to build, too, we cannot squeeze out a single tear.

Secretary Dulles did us a real favor with his moment of pique.

It will be only until the next situation arises before police in a city somewhere in the United States will chase a panicky kid in a car until he has killed and maimed innocent citizens.

Dog Dilemma

An epidemic of canine violence appears to have spread about the district in recent days, with postmen and a number of youngsters bitten by dogs, requiring medical attention.

Now there are mean dogs, stubborn dogs and overly-playful dogs, all of which have generally sharp teeth and none of which are able to give verbal explanations of why they happened to have broken skin with a fang.

All dogs should be kept under control by their owners — there is no excuse for a vicious dog or an exuberant dog being permitted to bite or maul visitors on his owner's property without warning.

But not all of man's best friends are at fault when the howl of pain arises. Pets are sometimes teased or are injured or ill when they turn to the one defense bestowed by nature.

Any dog merits a bit of respect before a human being imposes on his presumed friendship. A little more control and a little more respect will solve this current canine problem.

truly representative of a party than his rival are raising a question that can't be answered.

The main stream of Republican may be what the Goldwaterites say it is, or what the Rockefeller people say it is. It's as easily possible it's what the Nixon backers say it is, the Scrantonites, the Romneyites, even the Stassenites, if any can be found.

The main stream of bipartisan political thought is what political candidates are looking for, so they can jump in and be carried along to easy victory. Franklin D. Roosevelt found it. Dwight D. Eisenhower found it.

Neither could claim he was in the main stream of his own party's thought when the success story began. On the contrary, both men were still cutting the grain of partisan thought even after they had demonstrated their vote-pulling power.

MY VISIT lasted two hours. I told them about myself and my family. They talked about my classmates and my era. It was like watching colored slides containing familiar faces that could not be brought into proper focus without a skilled hand.

They had the skill. They remembered. They had watched the procession from one fixed point and knew all about it — what had been worth watching and how fast it had moved.

I think I stayed too long, but only because I was selfish. I didn't want to let go of this warm and wonderful thing that had happened to me — this re-encounter with time that was gone forever. It is improbable it ever will happen again.

The Professors Cannon were my only meaningful contacts in Academe. Both taught literature, the only subject that attracted me. All the other teachers of my time are gone.

But whenever I revisit the tree-shaded paths of my Academe, I will think of the Lee Edwin Cannons. They always will be there, on that same porch, waiting and hoping for their boys and girls to stop by.

It makes time stand still for them, too, spending if it had the Aswan dam to build, too, we cannot squeeze out a single tear.

Speaking Of Poverty Programs

Union Chiefs Aid Rockefeller Drive

By Victor Riesel

There no longer can be any doubt that powerful labor leaders are running interference for Nelson Rockefeller in the drive to block Barry Goldwater. And they are picking up speed in California where they want to stop him cold in the June 2 primary.

The New York gov- ernor got a strong assist the other day from no less than the chief of the big Steelworkers Union, silver-haired David McDonald, whose people have long been influential inside labor on the Coast.

The strong arm of McDonald was extended to Rockefeller during the closed sessions of the AFL-CIO high command executive council. The steel chief lauded his fellow council member Lee Minton (both are national AFL-CIO vice presidents) for helping Rockefeller.

He quietly gave Minton — who also is chairman of the National Labor for Rockefeller Committee — a list of United Steelworkers officials and activists and told him to telephone them personally.

As a close personal friend and political ally of President Johnson, the steel labor leader could not publicly assign some of his California lieutenants to the Rockefeller operation. But Minton was assured that they are ready, willing and able and are awaiting his telephone calls.

OTHER NATIONAL union chiefs on the high command board praised Minton, who is head of the Glass Bottle Blowers Union, for his alliance with Rockefeller and just as enthusiastically as McDonald disclosed that many of their California colleagues were with him in the "Stop - Goldwater" campaign.

Bluntest of all were leaders of the Building and Construction Trades Unions. Their California counterparts are making no secret of their efforts to kill off Sen. Goldwater's chances for the Republican nomination.

One of the frankest declarations of war on the Arizona appears in the May 15 edition of

the East Bay Labor Journal, the "only official publication of Central Labor Council — AFL-CIO and Building Trades Council of Alameda County" which is in the San Francisco Bay area.

It says candidly, "GOP Unionists Warned to Vote Against Barry."

THEN FOLLOWS an editorial unique even for the outspoken, rough - and - tumble politics of recent primaries.

"Some people in the labor movement think the nomination of Barry Goldwater by the Republicans would be the best thing that could happen for Democrats and unions," the editor writes.

"In other words, he would be the easiest to beat. A different view was expressed at last week's Building Trades Council meeting. It was suggested that union members who are registered Republicans vote against Goldwater June 2.

"Since California primary laws prohibit write-ins or jumping party lines, the only way for registered Republicans to do this is to vote for Rockefeller."

However, the paper is quick to advise its readers that this will only be temporary strategy and that they are not abandoning the Democratic party.

"Proponents of this course," the paper warns, "carefully point out that they are in no way endorsing Rockefeller. And they emphasize that President Johnson is the man for all unionists, regardless of political party, to vote for in November."

THIS PUBLICATION of a strong section of the California labor movement then declares it has at least three reasons for its pre-primary policy.

"Since Rockefeller is generally considered out of the running," the labor analyst asserts, "a vote for him is a vote to stop Goldwater."

"A Johnson - Goldwater race would exert pressure on Democrats to become more conservative. The national Democratic party needs a little pulling toward more liberal, not more conservative, positions."

"There always is a slim chance that something might happen to President Johnson between now and November, or that, through some fluke, Republicans might 'pull a Harry Truman'."

"We don't think any of these things will happen, but they are possible. At any rate, we are prepared to document the phoniness of the alleged labor and liberal records of Rockefeller, Scranton, Lodge or any other GOP candidate."

"IN ADDITION, we feel it would be bad for California if Goldwater forces captured the GOP machinery any more fully than they already have."

Rockefeller's people take no personal insult from the needling so long as the appeal to the registered Republican laborites is pushed by the union chiefs. The governor's strategists estimate that 25 per cent of the state's 1.7 million union members are registered with the GOP.

This would mean 425,000 dues card holders and their families. In a tight race this could be a balance - of - power bloc — if it could be swung.

If the labor people, after all their work, fail to deliver, they will be one of the losers, though they're not on the primary ballot.

Question Of The Day

By David Lawrence

Avoiding New Inequalities Poses A Problem

Few people will dispute the theory that discrimination by reason of race or religion or color hurts the pride and feelings of the individuals who are the victims of such discrimination. The big question today is how to overcome such discrimination without introducing new kinds of inequality, and just how far the power of law itself should be used to limit freedom of association either in private life or in business.

Congress has before it a civil rights bill — the most far-reaching statute proposed in nearly 100 years. Probably only a small number of persons throughout the country have had a chance to read it in full, and many of those who have done so possibly have gotten lost in some of its legal phrases and ambiguities.

There have been many suggestions from time to time that legislation of this kind ought to be voted upon by the people directly through a national referendum.

How might the questions be phrased in such a referendum?

An examination of the proposed compromise amendments and the language of the House bill which is pending before the Senate leads to the conclusion that there are hundreds of questions that might be submitted to a national referendum and still leave numerous problems isolated that could arise if the legislation is enacted.

THOUGH NOT covering by any means all the questions that might be submitted, here is a sample of some of which the voters could be asked to answer "yes" or "no":

1. Do you want the federal government to control who shall be customers of hotels, motels, lodging houses, restaurants, cafeterias, lunchrooms, lunch counters, soda fountains, gasoline stations, motion - picture houses, concert houses, sports stadiums and arenas?

2. If you own or operate one of these private businesses, do you want the right to serve or refuse to serve whomever you please?

3. If you have located your restaurant or other public accommodation in a certain neighborhood whose residents happen to be of one color and have built up your business to attract customers from that area, do you want to be required to serve everybody, regardless of race or color?

To put it another way, should anyone who operates a private business be prevented from discriminating for business reasons and be compelled to go to court in lengthy lawsuits to prove what was in his mind?

4. If you are the owner of one of these public accommodations, do you want a federal judge, without a jury, to be able to put you in prison or impose a fine because he says you failed to obey his order not to discriminate?

5. If you own and occupy a lodging house with six rooms to rent, do you want to be subject to punishment for discrimination, while your competitor who has only five rooms to rent is not subject to such penalties?

6. Do you want the federal government to be authorized to cut off funds from a federally assisted project in your state and injure all citizens alike if what the government calls discrimination or racial or religious grounds is proved in a few instances?

7. If you are an employer with 25 or more employees and your business theoretically affects commerce, do you want the federal government to limit your right to hire or fire your employees and to set their employment conditions?

8. Do you think it is fair to let the employer with less than 25 employees practice discrimination while the employer of more than 25 employees is prohibited from doing so?

9. Do you, as an employer or as an official of a labor union, want agents from a federal commission to be able to cross-examine everybody in your organization to determine whether there has been any discrimination in allocating jobs or in conducting the affairs of a business or a union?

10. Do you, as an employer, want to be forced by the federal government to hire applicants who are atheists even though you yourself hold convictions against atheism as a kind of religion that you think condones immorality?

AN AFFIRMATIVE answer to all of the above questions today means that the citizen would favor adoption of the pending civil rights bill as amended by the proposed compromise provisions.

Some of the persons who answer in the negative, however, would still like to see some form of civil rights legislation passed but with no such extensive power given to the federal government. Those who do not wish any legislation by the federal government, leaving such matters to the states to handle, would, of course, vote in the negative.

The above questions indicate nevertheless why it is possible for citizens to believe in the doctrine of equal rights and equal protection of the laws and yet disapprove of the methods that may be applied if the pending civil rights bill is written into law.

The referendum idea has been used to pass judgment on many proposals for state legislation, but no national referendum on any proposed federal law has ever been taken.

Members of Congress sometimes send out lists of questions to voters in their respective districts to ascertain the views of constituents on pending legislation. The final recourse of citizens, therefore, is to vote every two years for the candidates for Congress who favor or oppose particular proposals for legislation.

Letter To The Editor

EDITOR OF THE REVIEW:

I am writing concerning Mrs. Robert Patterson's letter about the Beaver Local school situation.

Does Mrs. Patterson know that this is America? People have a right to vote as they see best. I surely get annoyed with people "crying" over the defeat of the 5-mill levy.

How does Mrs. Patterson think the old people can afford to pay any more taxes, or should we merely cast them aside? People such as she seem to think Beaver Local should keep up with the schools in other larger areas. These persons must realize that we have no large industries to support our school as do many of the larger districts.

I believe Mrs. Patterson is really happy to see a 6-year-old walking to school — just to spite the other persons who did not vote the same way as she.

If it is necessary to cut bus expenses, then why are the drivers permitted to use the buses to drive home? Let's park these buses in a place where they may be used to the best advantage.

I believe I read in the paper a while back that the state was giving 25 cents per pupil, and the same per mile for transportation.

If this is the case why make them walk? We better investigate into this a little further. I too think of extra curricular

lar activities as part of our children's education, but should it be placed ahead of the academic program as many would appear to have it? I am in agreement with cutting the extra curricular activities to give the teachers a raise, and then if there is money left over, use it wisely for extra curricular activities.

I do not think we have failed our children, as Mrs. Patterson stated. Maybe we have spoiled them, but not failed them.

I am the father of a future teacher, starting next year.

Council Raps Plan To Close Lisbon Depot

LISBON — Village Council adopted resolutions Monday night opposing the Erie-Lackawanna Railroad's proposal to close a freight station here and asking the State Highway Department to eliminate an alleged traffic hazard on Route 164 at the south end of the community.

The first resolution opposes the railroad's proposal to eliminate the freight station here, the terminal of the Niles-Lisbon Branch. A hearing on the railroad's application is scheduled Wednesday before the Public Utilities Commission at Columbus.

Council authorized Clerk-Treasurer Ray Hempstead to send the resolution to Erie-Lackawanna and the PUCO. The railroad also plans to close the freight stations at Leetonia and Canfield on the same line.

The other resolution calls on the Highway Department "to plan, design and construct an improvement eliminating" the traffic hazard, with the village paying \$500 as participation toward the cost.

The chief hazard is a narrow concrete bridge situated in a "dogleg" turn on Route 164, which was improved south of the bridge a couple of years ago. North of the bridge there are two right angle turns within 100 yards of each other, the northern-most turn being additionally hazardous because of a railroad crossing and the entrance to Dickey's Feed Mill.

A Wellsville man was injured early Sunday when his north-bound car rammed the concrete bridge. An identical collision last Nov. 15 killed George Alek of Salem and injured three other Lisbon teachers returning from a meeting in East Liverpool.

Hempstead will send the resolution to the department's Division 11 office at New Philadelphia. With it will go another resolution relieving the state of any responsibility for anything that might happen during the Lisbon Lions street fair and parade on the State route in June.

In other business, Council took under consideration a request from Ohio Edison Co. for a new contract covering residential and commercial use, traffic lights and street lights.

Deane Beck of Lisbon, Salem area manager, presented and explained copies of the proposed ordinance being presented to 63 ordinance areas in Ohio Edison's distribution system.

Beck said: "We are changing the rates to make installation and removal of demand meters optional with the customer rather than mandatory. We also are adding a new bottom block rate of 1.4 cents per kilowatt hour in both residential and commercial rates. In Lisbon, this will result in a total annual decrease of \$775 — about \$60 less from residential customers and \$695 less from commercial users." Lisbon has approximately 1,500 meters.

The present street light ordinance expires next Jan. 1 with Lisbon having 36 big street lights and over 200 smaller ones outside the business district. The bill runs \$680 to \$700 per month. The rate would not change under the proposed ordinance.

The current rate for the eight traffic lights would be the same under the new ordinance. At present, the village has individual contracts for the eight lights. The total bill is \$28.50 per month.

Beck advised Council the rates are the same as those in non-ordinance areas which have been approved by the Public Utilities Commission and are now in effect.

Council's next meeting will be June 8. The summer schedule of one meeting per month will go into effect at that time.

Tavern Case Cut To Single Charge

WEIRTON — Three of four charges against Walter Batalo, owner, and Sue McIlvain, waitress, at the Town and Country tavern were dismissed by Squire Lee Ralich at a hearing Monday.

Batalo was accused of permitting the sale of beer and liquor after hours, and the waitress of selling liquor and selling beer and liquor after hours.

The charge against the waitress of selling liquor is pending, the squire said today.

The other charges were dismissed, he added, because in his opinion the state code setting closing hours refers to Eastern Standard Time and not Daylight Saving Time.

Constable Patsy Cortez arrested the pair May 16 at 12:30 p. m. DST, which would be 11:30 standard time and within the legal hours.

Atty. Edward Zagula represented the defendants, and Atty. Callie Tsapis was present on behalf of the constable.

Three States Hold Primary Vote Today

WASHINGTON (AP) — Control of Florida's Republican party and the selection of a Democratic senatorial opponent for Republican Bud Wilkinson, former University of Oklahoma football coach, spiced primary elections in three states today.

Sen. Barry Goldwater was certain to pick up strength in his bid for the Republican presidential nomination no matter what the outcome of today's Florida primary.

Two rival slates were entered — one pledged to the Arizona senator and endorsed by him and the second unpledged but with most of its members favoring him for the nomination.

In Oklahoma, officials predicted 500,000 voters would turn out for the runoff primary to determine whether U.S. Sen. J. Howard Edmondson or State Sen. Fred Harris will oppose Wilkinson in the November election. Wilkinson was nominated by Republicans for the Senate seat now held by Edmondson in the May 5 primary.

Most observers rated the bitter Democratic match a tossup.

In Kentucky, widespread voter apathy was reported in a primary election to select Democratic and Republican nominees for the U.S. House of Representatives.

Goldwater and Gov. Nelson A. Rockefeller of New York continued campaigning in California for that state's June 2 presidential primary and its 86 GOP convention votes.

Monday, they both praised former President Dwight D. Eisenhower's statement defining the views which he hopes the 1964 Republican presidential nominee will hold.

In San Diego, Rockefeller said his position falls within the framework of Eisenhower's statement and Goldwater's does not. Goldwater issued a statement in Redding applauding Eisenhower for what he called "a public rebuke to those who would rule or ruin" the Republican party. He reportedly does not believe Eisenhower's comments are designed to derail his conservative campaign.

Erhard Will Attend Common Market Talks

BONN, Germany (AP) — Chancellor Ludwig Erhard says he plans to attend a European Common Market meeting shortly and hopes the trade bloc's other five government chiefs will join him.

Erhard, who is to visit President Johnson in Washington next week, urged the summit meeting Monday night to give the organization a political underpinning.

Cabinet ministers from the member countries — the others are France, Italy, Belgium, the Netherlands and Luxembourg — meet June 1 in Brussels, but it was not certain Erhard had this date in mind.

This includes aerial photograph to show the general terrain and borings to estimate the type of subsurface strata for construction of the lines.

None of those attending the meeting expressed opposition to water and sewer district but they desired definite figures, which the board was not able to give them at present. Judge Buzzard commented that it is impossible to give definite figures until the construction is completed but he said he was sure "the board would do the best job possible."

A QUESTION was asked if the new water line went past a home and the homeowner had good water, was there any way for the health department to condemn their wells and require them to hook into the new line. Harry Stockdale, county sanitarian, said there is no law to make any person quit using bad water; in fact, the County Health Department doesn't check private water supply unless requested to do so.

Board members present were Duffy, Wayne Barnard and Stewart Snyder of Glenmoor, and Emil Dominick of Park Way Ext. Commissioners James Boyd and Walter Hunston also attended.

Red Chinese Urge Talks In Laotian Crisis

TOKYO (AP) — Red China proposed a 14-nation conference on Laos today, charging the United States is planning to send its troops to Thailand "from where they intend to enter Laos."

A note broadcast by Radio Peking declared that "The outbreak of a general civil war in Laos (is) touch-and-go." Communist China rejected a British request that Peking use its influence in checking the Communist Pathet Lao offensive in the Plaine des Jarres of north-central Laos.

Foreign Minister Chen Yi sent the proposal to Britain and the Soviet Union, who were co-chairmen of the 14-nation conference in Geneva that set up Laos as a neutral nation in 1962.

Chen proposed the meeting be held in Phnom Penh, capital of neutralist Cambodia, which has been leaning toward Peking in its war of words with the United States and South Viet Nam.

In London, a Foreign Office spokesman said Britain had received Peking's note and it is being studied.

Gang In Philadelphia Damages Housing Unit

PHILADELPHIA (AP) — About 100 men, swinging clubs, axes and sledgehammers, swept through eight houses in a non-union project near Independence Hall Monday, causing \$15,000 damage.

Roy Fulman, the developer, who made the damage estimate, said the gang had raced through in five minutes, breaking windows and frames, ripping out railings and rainpipes, and chopping holes in ceilings and walls.

Six men were hurt while trying to flee.

Fulman told police he had been warned last weekend there would be trouble.

Police Lt. Michael Levin of the labor squad said members of the AFL-CIO Building Trades Council had picketed the project last March.

Beaver Jury Indicts Motorist Of Negley

Eighteen true bills and two not true returned at the first session of the Beaver County Grand Jury Monday afternoon at the Courthouse at Beaver.

Larry Lester Kelly of Negley was indicted on a charge of driving while his license was under suspension. However, the case was returned to court to determine the costs.

Remain Off Job

CINCINNATI (AP) — About 400 employees of the General Electric Co. plant in Blue Ash remained off the job Monday in protest of the firing of Kenneth Bolton, president of the International Brotherhood of Electrical Workers local. IBEW representatives said the strike was unauthorized. GE officials said Bolton was dismissed Friday because he was promoting a production slowdown among the employees.

Morton Due As Chairman At Convention

WASHINGTON (AP) — The Republican National Committee meets today to approve Sen. Thurston B. Morton of Kentucky and Gov. Mark Hatfield of Oregon as the top officers for the party's 1964 convention.

The convention arrangements committee named Morton permanent chairman Monday. He had no opposition.

Overcoming opposition from some backers of Sen. Barry Goldwater, R-Ariz., the committee combined the jobs of temporary chairman and keynote speaker and gave them to Hatfield.

Generally Morton is considered a moderate Republican. Hatfield, who usually is associated with the party's liberal wing, had been recommended for permanent chairman by the Republican Governor's Conference.

Neither man has openly supported any of the potential GOP presidential nominees.

Some Goldwater supporters had said they would fight any move to combine the job of temporary chairman — for which Hatfield had been ticketed — and the post of keynote speaker, which was wide open after National Chairman William E. Miller withdrew from consideration.

After the committee voted 28 to 20 to combine the jobs and then picked Hatfield over Gov. Tim M. Babcock of Montana by an even wider margin, 28 to 10, spokesmen for Goldwater said they were satisfied.

Miller, announcing the selections, noted that Republicans had only two major convention officers prior to 1952.

With no contests for the nomination in 1956 and 1960, he said, the three-way split of top jobs, adopted in 1952, was retained to give more exposure to Republican leaders.

Viet Buddhists Mark Birthday And Suicides

SAIGON, South Viet Nam (AP) — Hundreds of thousands of Buddhists in Saigon and Hue joined in massive but orderly religious rallies today to commemorate Buddha's birthday and the fiery Buddhist suicides that helped topple President Ngo Dinh Diem last year.

U.S. military authorities imposed an 8 p.m. to 6 a.m. curfew for American servicemen in Hue, 400 miles north of Saigon. A bloody riot there during the birthday celebration last year set off the Buddhist crisis for the Diem government.

Sentencing Scheduled

TUCSON, Ariz. (AP) — Sentencing is scheduled Monday for William W. Shields, 25, who has pleaded guilty to the \$494 robbery April 2 of the First National Bank & Trust in Mantua, Ohio. Shields, arrested in Tucson by FBI agents April 11, pleaded guilty to the charge Monday in U.S. District Court under a provision which permits him to be sentenced in Tucson rather than Ohio.

Mementos Of Kennedy On Exhibit

NEW YORK (AP) — Mrs. John F. Kennedy looked over mementos of her late husband and remarked, almost in a whisper, "I suppose the photographs are the hardest to look at."

The pictures showed the late President Kennedy with his family as a boy, playing with his own children, campaigning.

This Friday would have been the 47th birthday of Kennedy, killed by an assassin last Nov. 22. The birthday anniversary will be marked by an international television program, "JFK: May 29, 1964," in which his widow will take part.

Mrs. Kennedy was here Monday to inaugurate a traveling exhibit of his mementos. She made the comment about his photographs after a reporter asked what part of the exhibit impressed her most.

Atty. Gen. Robert F. Kennedy also attended the preview.

After a nationwide tour, the mementos will be put on display in the library planned at

Harvard University to house Kennedy's papers.

The exhibit at the International Business Machines Corp. building will be open to the public today through June 6.

GOP Group Meets

He reminded the East Palestine Women's GOP Club will meet Wednesday at 8 p. m. in the old City Hall. Next meeting of the county group will be June 8 at the hotel.

Be sure the heating system will meet your needs. Tear out this ad and ask your builder or realtor these heating questions.

1 Will the heating system be economical to operate? (No other modern, automatic heating system can match gas for economy.)

2 How is the house insulated? (With gas, normal insulation is used. With electrically heated homes, heavy insulation is required to help hold down heating costs. Excessive insulation, however, often presents indoor moisture problems, seals fresh air out of the home, makes it stuffy inside.)

3 Will the heating system keep my basement warm? (Normally it is impractical to heat basements with electric heat because of high operating costs. Forced air gas heat keeps your entire home cozy, including the basement, for less than it costs to heat the upstairs with electric heat.)

4 How is the heat in the home circulated? (A gas forced air heating system gently moves the air throughout the home, mixes it; there are no hot spots, no cold spots. Electric resistance heating systems do not move the air; therefore, the heat is not evenly distributed and tends to stratify in layers.)

5 What provision in the heating system is made to filter the heated air and help keep the home clean? (A gas forced air heating system has filters which help clean the circulated air several times every hour. Electric resistance heating systems do not clean or filter the air in any way.)

6 Does the heating system make some dirt? (Contrary to what you might have read or heard, no dirt can be created by a forced air gas heating

system. The heated air in your home never touches the clean gas flame. All products of combustion are vented outside the home. Most of the dirt in the home comes in through your door and windows or is tracked in on people's shoes. This dirt is present in all homes, regardless of how the home is heated.)

7 How is the heating system controlled? (With gas, just one thermostat is needed to keep your entire home comfortably warm. Electric heating systems often have a thermostat in every room since there is no room-to-room heat circulation with an electric resistance system.)

8 How safe is the heating system? (Properly installed heating systems of all types are safe. They must pass rigid safety tests and contain built-in safety devices.)

9 Can the heating system be easily converted to whole-house air conditioning? (Some experts predict that before long, no home will be considered modern—regardless of its age—unless it is completely air conditioned. A forced air gas heating system can be easily converted to central air conditioning because the ducts are already in place. Because electric resistance heating systems have no ducts, they cannot be used to air condition.)

FROM ANY ANGLE, IT MAKES GOOD SENSE TO HEAT WITH DEPENDABLE, CLEAN GAS

County Seeks Signal At Unity Intersection

LISBON—Commissioner Walter A. Hunston went to the Highway Department's Division 11 office in New Philadelphia today, taking along a petition with 250 signatures seeking erection of a traffic light at the junction of Routes 14 and 170 in Unity.

Residents of the area filed the petition after earlier requests to the state produced no action. The intersection now has a caution blinker. Commissioners, at their regular meeting yesterday, approved a travel allowance for Hunston in the New Philadelphia trip.

Next meeting will be Thursday from 10 a. m. to 4 p. m.

Despite Supreme Court Order

Few Whites And Negroes Due In Same Classrooms

FARMVILLE, Va. (AP)—Few white and Negro students are expected to share the same classrooms next fall in Prince Edward County despite a U.S. Supreme Court order that public schools be reopened on an integrated basis.

While reaction to Monday's historic ruling from county and state officials was scant, opinions were privately voiced that the net result would be a public school system attended almost entirely by Negroes and boycotted by white students who would continue to study at private, segregated schools.

In delivering the court's main opinion, Justice Hugo L. Black said "the time for mere 'deliberate speed' has run out, and that phrase can no longer justify denying these Prince Edward County school children their constitutional rights to an education equal to that afforded by the public schools in other parts of Virginia."

The case, which has journeyed through a maze of state and federal court decisions since its inception in 1951, was sent back to the Richmond U.S. District Court which was empowered to order the county's schools reopened.

Gov. Albertis S. Harrison Jr. discussed the decision with members of the state attorney general's staff and later told

WASHINGTON (AP)—In the news from Washington:

RAISE: Secretary of the Treasury Douglas Dillon asked Congress Monday to raise the temporary debt ceiling from \$315 billion to \$324 billion for the fiscal year that begins July 1.

The debt ceiling now is temporarily at \$315 billion. If Congress does not act by June 30, it will revert to the permanent level of \$285 billion—about \$25 billion below the nation's actual debt at this point.

James Cregar Given New Term As Head Of Post 374

James Cregar was elected to a new term as commander of American Legion Post 374 Monday night at the post home.

Cregar, who succeeds Robert C. Landfried, and other officers will be installed Monday night. Members of the auxiliary will be guests and lunch will be served.

Also elected last night were Paul Beck, first vice commander; Vincent McGeehan, second vice commander; Robert Milne, adjutant; Rodney Stull, finance officer; William Sharp, sergeant-at-arms.

William Silience, Tad Galoway, and Landfried, trustees; Robert Poynter, judge advocate; James Wallover, service officer; Ray Cusick, insurance trustee, and Louis Provost, chaplain.

Named as convention delegates were Cregar, Poynter, Cusick, Milne, Harry Dawson, Wallover, Landfried and John Long.

Landfried reported on the Memorial Day program. He announced members will meet at the post home at 6 p. m. Friday to decorate veterans' graves in Spring Grove Cemetery, starting at 7. On Saturday, members will meet at 8:45 a. m.

Feelings Run High In Peru After Rioting

By THOMAS J. STONE

LIMA, Peru (AP)—Feelings ran high in the Peruvian capital today and police were on the alert for more disorders in the wake of Sunday's bloody riot to a soccer game.

Police announced an official toll of 328 dead in the panic after police fired tear gas to check a riot in Lima's National Stadium.

The police said 122 of the victims had not been identified. It was the sports world's worst disaster, and the International Soccer Federation, with headquarters in Zurich, Switzerland, asked the Peruvian association for detailed information.

The rioters were protesting a referee's decision against the Peruvian team in a Peru-Argentina pre-Olympic match.

The police used tear gas again Monday to break up a small demonstration by students in front of San Marcos University. The police said inflammatory speeches were being made.

Police reinforcements repelled a Lima mob headed toward the home of Commander Jorge de Asumbuja, whom they accused of ordering tear gas shells fired into the crowd pouring onto the soccer playing field.

Asumbuja said none of the gas grenades was fired into the stands. He blamed locked exit gates for the mass suffocation and trampling of the victims.

Argentina was leading 1-0 when Peru scored a goal on an accidental kick by an Argentine player. Referee Eduardo Pazos of Uruguay nullified the point because of a foul.

Fighting broke out among some of the 45,000 fans and police escorted Pazos and the players from the field. Pazos declared Argentina the victor.

As portions of the mob surged toward the playing field, police fired tear gas into the crowd.

In an attempt to escape the choking fumes, the mob surged toward exit gates, locked to keep non-paying youths from sneaking in to watch the game.

Tobacco is the fifth largest U.S. cash crop, ranking behind cotton, wheat, corn and soybeans.

DINNER: President and Mrs. Johnson plan a special program of Irish readings by two Broadway stars at Wednesday night's formal state dinner for visiting President Eamon De Valera of Ireland.

The husband-wife team of Colleen Dewhurst and George C. Scott will perform in the East Ballroom in an after-dinner program for the black-tie event to which about 140 guests have been invited.

Keep In Trim

By IDA JEAN KAIN

Dieter Urgently Seeks Help

"You are my last hope! I am 20, weigh 168 pounds for 5'2." You can imagine how I look, and worse, how I feel. I am

thoroughly disgusted with myself and yet I keep right on poking the fattening foods into my mouth. You have no idea what being overweight is doing to me. It's never off my mind for a moment.

"How will I go at it to find a doctor who can really help me? I've been to a few, and all they say is, 'You are too fat; go home and go on a diet.' Don't they realize I already know that and I just want some help and encouragement in staying on a diet?"

"SOMETIMES I think that as long as I'm never going to lose weight anyway, why not eat everything I can get my hands on and enjoy it. I know that sounds as though I'm pitying myself, and, I guess I am. I want to reduce, but I just can't. I feel beaten before I start. Tell me what I must do. I need help!"

Yes, you do need help. Call your county medical society and ask for a doctor specializing in obesity problems. In the directory this will be listed under the name of your county. It would also help you to talk with a professionally trained counselor in order to gain insight into the cause of your compulsive eating.

It is so sad to count yourself out at age 20! You are giving a failure picture to your mind. By persistently picturing failure in vivid detail you make it so real to your nervous system that you keep repeating the failure pattern. With awareness of how your mind works toward whatever goal you set, you can get on the right thought track.

Think in terms of what you want. Identify yourself with success, not with failure. You can re-vitalize your whole personality.

You say help, help, help, all

through your letter. What you really want is somebody to be concerned about your problem. Could you join a group and reduce with someone else? You need encouragement from someone who understands, someone with whom you can work on a continuing basis.

I am concerned with only two things—

Cancer Group Revisions Set For Services

LISBON — Revisions in the American Cancer Society's program of service to patients and to the community are to go into effect here soon, it was announced today by Mrs. Audrey Newtz of East Liverpool, president of the Columbiana County chapter.

Mrs. Newtz said there would be no sweeping changes but limitations based on patient need, available community services and funds in the local chapter's budget will be guiding factors in determining the extent of the service program.

Mrs. Newtz reported the revisions were an outgrowth of the two-day statewide meeting over the weekend of some 80 American Cancer Society leaders in Cleveland, where effective ways of implementing the updated service program were discussed.

Attending the meeting from here was Mrs. Jayne Calhoun, executive director of the county unit. She said a new service program manual that represents the collective thinking of physicians and nurses was introduced at the meeting and would be used to guide patient and community service activities here.

In other activity, society representatives were informed of a standard and centralized accounting system that will facilitate reports to the public on the disposition of funds.

"Under this system, the American Cancer Society follows the recommendations of the National Health Council, which advocates a sound and standard accounting system among all voluntary health agencies," Mrs. Calhoun said.

Rep. Bolton Sees Viet War News 'Distorted'

ASHTABULA, Ohio (AP) — Because the press has overemphasized U. S. setbacks in the Viet Nam war, Rep. Frances P. Bolton says the American public does not have a clear picture of the situation.

The American public mistakenly thinks the whole anti-communist effort in Viet Nam "has gone to pot," Mrs. Bolton told an honors convocation at the Ashtabula Center of Kent State University Sunday. The record showed that only one in 10 sorties against the enemy failed, and it is news of the one failure that the press sends back, said the ranking Republican on the House Foreign Affairs Committee.

Hints from Heloise

— By Heloise Cruise —

Dear Heloise: If you bake sugar cookies (the kind you roll out, cut with a cookie cutter and sprinkle with sugar), try it this way:

Cut both top and bottom from a frozen juice can and use this for a cutter.

Put your sugar in a salt shaker and sprinkle each cookie before you lift your cutter off the dough.

This way only the cookie gets sugared, no sugar is wasted, and your scraps of dough do not get loaded with extra sugar.

Your column is terrific. More power to you. I wish someone like you had been around when I was married nearly forty years ago.

MARY BORTHISTLE.

LETTER OF THOUGHT
DEAR HELOISE: Our family is very fond of the quotation: "This, too, shall pass."

How often in a lifetime, we have to remind ourselves of this. It is comforting in time of sorrow and grief, despair, loneliness or fear.

But, I also find myself muttering it aloud on those days when the children are on a rampage and nothing, absolutely nothing, goes right! Thank the Good Lord every day DOES end, sooner or later!

NITA RICHARDSON.

LISTEN FOLKS: Don't you just hate those pithy potatoes

that grow eyes? They seem to stare you in the face, saying, "Look, go buy some new ones."

When you see little white buds growing on potatoes, take your fingernail or a knife, and pop them off! Your potato won't shrink and shrivel . . . and they will keep longer.

Try it. It works. Test it this way yourself: Save two potatoes from the same batch. Let one grow eyes, but keep the eyes scratched off the other one. Leave them in your potato bin for a month or so . . . then write and tell me which is and which isn't, and if I am right.

HELOISE.

DEAR HELOISE: I purchased a suede brush at my five and dime store and use it to scrub my baked potatoes. It works like a charm. It seemed as if I could never quite get them clean enough before I tried this method.

MRS. E. C. SENTER.

DEAR HELOISE: A bachelor told me he baked potatoes in a coffee can on top of his stove, on low simmer. I tried it and it works. I punched holes with a nail in the top of my coffee can (about five or six holes), and placed a

small inverted pie tin in the bottom of the can.

After turning the burner on medium heat (on some stoves, it may be low — Heloise), the potato bakes in about 45 minutes.

The can may be used over and over again. It bakes two medium-sized potatoes beautifully. I like this idea better than using aluminum foil.

MADELINE KINSLEY.

DEAR HELOISE: Sometime ago I received a box of lavender-scented toilet soap. I slipped cakes of this into various bureau drawers. Now when I have overnight guests, I rub a cake of lavender soap over the pillowcase and the top edge of the sheet. It gives off a lovely, faint aroma — enough to delight, not enough to offend.

Nowadays, when bedding is usually dried indoors, this is a refreshing touch.

DEAR HELOISE: If you have velvet that is shiny or wrinkled — boil hot water in a coffee pot. Take the velvet and wave it over the steam coming out of the coffee pot and it will take the shine and wrinkles out. Then gently brush the spot with a soft brush.

It works. I know, because I am a seamstress.

Wellsville Jaycees Postpone Officers' Election To June 8

Plans for election of officers June 8 were announced at a meeting of the Wellsville Jaycees Monday night at the Jaycee Hall.

The election was to have been held last night but was postponed because the bylaws require that each member shall be notified of the candidates 10 days prior to election. Due to an oversight, the list was not mailed. It will be sent out this week.

The candidates are Dave Orr and Bill Miller, president; Walter Henthorne and Tom Hunter, internal vice president; Nunzio Lombardozzi and Jack Call, external vice president; Ed Todd, Robert Delposen, Don Snediker and Joe DeLanzo, two-year trustees, and Roy Groom, Bob Hull, Dan Tice and Bob Ruder, one-year trustees.

Groom, chairman of the inaugural ball, said it will be

June 27 at the Newell American Legion home. Jim Laughlin will be master of ceremonies. Groom's committee includes Miller, Dick Kevan, Snediker and Henthorne. Kevan, president, conducted business. Members will begin collecting articles tonight at 6 for a white elephant sale to be held in the near future. Anyone with articles to donate may call for pickup at 532-1963, 532-2181, 532-3155, or 532-2035.

The Jaycees went on record in April favoring erection of a pressbox at Nicholson Field. Frank Fusco, chairman, is to meet with school officials on the project. After it is determined what is wanted, plans will be drafted and estimates obtained.

Kevan reported on the scholastic awards banquet May 13 at the First Christian Church. The Jaycees presented awards to 22 students. Sixty-five attended.

Man, 20, Gets Fine, Lecture In City Crash

A 20-year-old East Liverpool man cited by police Sunday night after a two-car crash on the Lisbon St. Hill that injured seven was fined \$25 and costs and given a lecture by Municipal Judge Samuel M. Chertoff when he pleaded guilty today on a charge of operating an auto with faulty brakes.

Phillip Eugene Smith, 1424 Dresden Ave., was cited by Patrolman L. E. Richard after his 1951 two-door sedan skidded across the center line on a curve and hit an oncoming auto driven by Thomas W. Eberhart, 52, of 8th Ave., LaCroft, knocking it backward over an embankment.

Queried by the court, Smith said he was driving a 1955 model car for which he had paid \$75. When Smith said his old car was demolished in the crash, the judge commented: "That's a blessing!"

The collision injured five in the Eberhart car, along with Smith and his wife.

In a similar case that followed immediately, the judge granted a continuance until June 3 to allow the defendant to dispose of an allegedly unsafe vehicle.

Charles Eugene Davis, 20, of 1933 Dresden Ave. was cited by the State Highway Patrol Saturday on Route 7 on the charge of operating the unsafe vehicle.

The patrol reported Davis was halted originally because his headlights were not functioning at dusk. Investigation showed no fault in the headlights, but two tires were bare of tread and the brakes were not operating properly, the patrol reported.

Responding to a question from the judge, the unemployed driver said he bought the 1952 car for \$50. "In my opinion, that is a very unsafe car to be on the highway," the judge said. "You heard what happened in the previous case — a car with no brakes. I can't order you to do it, but I think you would be better off to get rid of that car. I will give you a week to sell it." Then the judge ordered the continuance.

The Board of Public Utilities has accepted bids from seven firms to supply chemicals and equipment for the water department.

It has sent a letter asking approval of the contracts to the Board of Control composed of Mayor Merrill D. Hall and Safety-Service Director Robert E. Vodrey, which must act on all contracts. It is considered a formality.

The utilities board had been considering the offers since opening bids May 14.

The bids were received on 250 tons each of hydrate or pebble lime and aluminum sulphate, 18,000 pounds of liquid chlorine, 80 tons of activated charcoal, 5,000 pounds of sodium chlorite, 100 water meters ranging from half-inch to 4 inches, 200 tons of dry mixed sand and cement, and 1,000 feet each of 4-, 10- and 12-inch cast iron pipe, and 2,000 feet of 6- and 8-inch pipe.

The contracts accepted by the board include an offer from the Milliron Co. for the sand and cement mixture used in repairing reservoir walls. The price is \$20.20 a ton for the 1-4 mix most commonly used. Ohio Supreme Court Action
On Housing Pleas Due In Fall

COLUMBUS, Ohio (AP)—Ohio Supreme Court action on fair housing appeals must wait until next fall.

Postponement became definite when judges canceled a June hearing on conflicting appellate court decisions in Toledo and Oberlin cases before summer recess.

Ordinances of both cities ban racial discrimination in sale or rental of housing, a goal of demonstrators demanding a statewide enactment by the legislature.

Lucas County Common Pleas Court upheld Toledo's 1961 ordinance. But the 6th District Court of Appeals reversed because ordinance regulations were too indefinite to enforce. Taxpayer Earl F. Terry, who brought two suits, appealed to the Supreme Court.

Early this year, the 9th Dis-

trict Court of Appeals upheld a broad fair housing ordinance adopted by Oberlin in 1962. The decision was certified to the Supreme Court as being in conflict with the Toledo ordinance ruling.

The 9th District decision reversed Lorain County Common Pleas Court which had held the Oberlin ordinance unconstitutional for lack of "substantial relation to public health, morals, safety or welfare."

Retired banker J. L. Porter challenged the Oberlin ordinance on grounds that enforcement would interfere with the right of owners to dispose of property as they desired.

The ordinance makes it a crime for owners of five or more houses or apartments to discriminate in their sale, rental or other disposition.

'Drowned' Man's
Fingerprint Is
Found By FBI

AKRON, Ohio (AP)—It was Aug. 26, 1962, when George Wesig walked into Lake Erie for a swim at Cedar Point, leaving his wife and four children on the beach. They never saw him again.

No trace was found, but police were not convinced Wesig, a good swimmer, had drowned. Monday, their suspicions were justified. They were notified by the FBI that Wesig's fingerprint, which had been sent to the FBI by Akron police, had turned up in Los Angeles.

A man using the name Gregory Everett George was arrested May 11 on an intoxication charge. Released by police, George, whose fingerprint was found to match Wesig's, disappeared three days later.

The man had been living in Sherman Oaks, Calif., with a wife and a child, Los Angeles police reported. Mrs. Wesig, told that her husband apparently still lives, filed an abandonment charge.

Fire Bombs Tossed At Argentina Buildings

BUENOS AIRES, Argentina (AP)—Fire bombs were thrown at several buildings Monday night and a fire-scarred United States flag was dropped at a hotel entrance by members of the revolutionary Peronist youth movement.

The violence was a prelude to fresh sit-in strikes expected at various factories.

A truce declared by labor leaders ended at midnight, and the unions were expected to resume their "fighting plan" to get a minimum wage written into law by Congress. The Peronist-dominated General Confederation of Labor is leading the drive, which independent unions oppose as premature.

Board Slates Redesign On Cornerstone

Plans to redesign the cornerstone of the Southern Local High School were approved by the Board of Education at a special meeting Monday night at the school near Salineville.

Previous discussions centered on the appearance of a Masonic emblem on the cornerstone, which was dedicated in a public ceremony last fall, conducted by the Salineville Masonic Lodge 348.

Various groups have questioned the use of a lodge emblem on a public building cornerstone.

James Coughen, Grand Knight of the Salineville Knights of Columbus, spoke again at last night's meeting. He had appeared at a meeting of the board last week.

He reiterated his previous statement that no lodge or private group should have an emblem on a public building. He explained the question was not over a religious issue, but an issue of a private designation on a public edifice.

Harold E. Jarvis, president of Salineville Council and past master of the Salineville Masonic lodge, defended the stone's engraved appearance and its use on a public building.

He said the lodge has a public ceremony "used all over the country for laying cornerstones at public buildings."

He said the stone, when the ceremony was completed, became the property of the school district, and the Board of Education had complete control.

Jarvis said the lodge would co-operate in any decision the board wished to make regarding the cornerstone and possible changes.

Others speaking included Olan Sanor of the County Board of Education.

Jarvis commented that in the

best interests of the community and school district, "and to promote further harmony, the Masonic Lodge recommends to the Board of Education it pass a resolution that the cornerstone be redesigned and the lodge emblem and lodge number be either covered or sufficiently changed to be acceptable to all parties."

He said also the lodge would bear the expense of refacing the stone to spare the taxpayers of the district an added expense.

Jarvis expressed the fact the lodge pledges its continued support to free education and the support the further efforts of the board.

The board unanimously adopted his recommendation.

There is no immediate indication on when the stone will be changed.

About 58 attended the meeting.

Checkup Urged On Pine Insects

LISBON — Christmas tree growers and homeowners should be checking their pine trees for infestation of European sawfly. At this period of the year, this pest appears on pine trees as a greenish-brown worm which feeds upon the pine needles. These worms have presently attained considerable size and are vigorously feeding on Scotch pine and red pine plantings, according to Don Myers, county extension agent in agriculture.

The pine sawfly larva does not feed upon the new growth, only eating the older needles. Injured trees are usually not killed by one year's attack. Complete destruction of the older needles over two or three consecutive growing seasons may so weaken a tree that it will die.

If plantings show evidence of larva feeding on the needles, the infested trees should be sprayed with either DDT or lead arsenate. DDT is the generally preferred chemical. Entomologists recommend one quart of 25 per cent emulsifiable concentrate or two pounds of 50 per cent wettable powder in 100 gallons of water for control. A 5 per cent DDT dust also is effective.

The sawfly larvae are vigorous eaters and if present on pine plantings must be controlled immediately to reduce damages, Myers said.

The association agreed to hold a general meeting in early

fall, inviting highway, legislative and governmental officials in the four-county area. State Highway Director P. E. Mashester will be invited to speak.

Mossman read a "progress report" on planning and construction on 14 segments of the highway, which eventually will link Ohio River ports at East Liverpool with Lake Erie docks at Ashtabula.

Referring to the segment between the city limits and State Route 170, he cited delays caused by a landslide and drainage repair. Two lanes of the highway were opened late last fall. Mossman said the completion date for the stretch is July 31 "and the Highway Department fully expects the project to be open to traffic by that time."

Plans are about 90 per cent complete for the next area stage of the highway between Route 170 and Route 267 at Apple Corners and the state expects the work will be under contract in 1964, Mossman said.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Recently you made the statement that two blue-eyed parents could have a brown-eyed child. I believe you are wrong.

To have a brown-eyed child at least one of the parents must be brown-eyed because the gene for the expression of brown eye color is dominant. (Ann Landers note: A gene is one of the elements of the germ plasm which transmits hereditary characteristics.)

If your statement is true, then it should be noted that all the recent books on biology, zoology and genetics dealing with human inheritance are incorrect. I offer the following references to substantiate my position: (1) Wodessdalke, J. E. General Zoology. Wm. C. Brown Co. (1963); (2) Ville, C. A. Biology, 4th Ed. Saunders (1962); (3) Marsland, D., Principles of Modern Biology. Holt, Rinehart and Winston (1964). What is your authority? — Respectfully — M.J.F. ASSISTANT PROF. OF BIOLOGY, QUINSIGAMOND COMMUNITY COLLEGE, WORCESTER, MASS.

Dear M.J.F.: Thank you, Professor, and thanks to the hundreds of other professors and students who wrote to tell me I was wrong. Your comments are appreciated, but I am NOT wrong.

My principle authority is Dr. Carl Witkop, the distinguished chief of the Human Genetics Branch of the National Institutes of Health in Bethesda, Md.

Dr. Witkop says: "In the early days of genetics it was believed that eye color was determined by a single pair of genes. We now know that this is incorrect and that eye color is transmitted by at least three genes. In the vast majority of cases two blue-eyed parents will produce a blue-eyed child, but it is now an established fact that two blue-eyed parents can produce a brown-eyed child."

Dr. Witkop cites as his authorities, Stern, Curt, Principles of Human Genetics, 2nd Edition, W. H. Freeman and Co. (1960). Sorsby, Arnold, Genetics, C. V. Mosby Co. (1953).

So, to repeat — if it happens in your family, think nothing of it.

Blues And Browns

Dear Ann: I could have kissed you when you said two blue-eyed people could have a brown-eyed baby.

My husband and I are both blue-eyed and we have a brown-eyed girl. For years I have been subjected to snide remarks by his family. It was always said as a half-joke, but I got the point.

When your column came out I went down and bought six extra copies of the newspaper and mailed them to the proper people.

You have no idea what you have done for me. Many thanks. —MRS. XYZ.

It's Papa Who Pays

Dear Ann: Our daughter has been asked to the senior prom. She is all excited because the boy who asked her is very nice. Last night she told us that she is expected to pay half of the expenses, which will come to about \$18. According to her, it is customary for the girl's father to hand the fellow the money in an envelope when he comes to get her.

Things have changed since I was in high school but I would have been insulted if a girl's father had handed me an envelope to help pay for a date. May I hear from you? —PUZZLED PAPA.

Dear Papa: Granted, proms are horribly expensive these days, but Papa should not have to hand the guy an envelope when he comes to take out his daughter. You are absolutely right.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Chester Post Donates \$100

A contribution of \$100 for the Chester volunteer fire department's annual fair was authorized by the Chester American Legion Post 121 Monday night at the post home.

A contribution of \$25 for the post auxiliary's Poppy Day was also approved.

Open house will be held Saturday from noon to 4 p. m. at the post home for members, guests and families to dedicate the recent renovation. Lunch will be served, Robert House, chairman of the program, announced.

Dwight Allison, chairman of the Memorial Day program, said plans are complete for the observance to be held at Locust Hill cemetery Saturday at 10 a. m.

A membership of 455 — five above the quota — was reported by John Corcoran, adjutant.

William Mountjoy, commander, was presented a pin designating a 100 per cent quota achievement.

Second nomination of officers was held for election June 8. Leonard Cameron of Pughtown was enrolled as a new member.

Refreshments were served by Ed Huff and John Strum.

32 Attend Luncheon Held By Chaplain Association

About 32 attended the luncheon of the Tri-State Hospital Chaplaincy Association Monday noon at the Travelers Hotel with Dr. Fraser J. Jackson as guest speaker. The Rev. C. Donald Vogel, pastor of the Chester First United Presbyterian Church, introduced the physician.

Dr. Fraser told how the physician and ministers can co-operation in serving patients, and how the fields of medicine and religion have been closely associated since the beginning of time.

He pointed out that a spiritual background plays an important part in the recovery of a patient.

In a question-and-answer period that followed, two suggestions were presented, that representatives of ministerial groups sit in at future staff meetings at City Hospital and that ministers and doctors could hold luncheons together to share their experiences that would create better understanding.

Rev. Albert Rodenhausen was master of ceremonies and introduced the Rev. Arden R. Beck, pastor of the First Methodist Church of Wellsville, association chairman, who in turn presented the Rev. Joseph H. Varner, chaplain, who received standing ovation.

In his report, Rev. Varner said that two improvements were accomplished during the past year.

The program is being conducted at the Osteopathic Hospital as well as City Hospital, and since the beginning of the year, a secretary has been employed one day a week in the chaplain's office, which gives him more time for work in the wards.

He said the churches have been increasingly emphasizing the relation between religion and health, and unity in the work of the churches is shown by the increasing support of the chaplaincy program.

Rev. Beck in his report praised the chaplain and the chaplaincy program committee members and the churches of their financial support.

Physician Is Speaker

Rev. Vogel, treasurer, reported a balance March 30 of \$614.14. Total disbursements in the fiscal year totaled \$1,313.23.

Pastors of the various ministerial groups were introduced by Rev. Rodenhausen. Represented in addition to East Liverpool, were Chester, Newell, Salineville and Wellsville.

The invocation was sung in unison after which the Rev. Lewis Fraser of Wellsville, a retired minister, was song leader with Rev. Russell Mase pianist.

Gerald Finnie, minister of the Salineville Church of Christ, gave the benediction.

The chaplaincy association held a business meeting before the luncheon, with Rev. Beck in charge.

It was announced that the executive committee will continue to serve in the summer on a standby basis. Rev. Vogel, treasurer, gave his report.

Next meeting is Sept. 28 at the First Baptist Church when officers will be chosen.

Kennedy Stamp Sale Will Begin On Friday

The John F. Kennedy Memorial commemorative stamp will go on sale at the main Post Office at 7:45 a. m. Friday, Postmaster Samuel W. Brown said today.

The Station A and Calcutta offices also will have the stamp available at the opening of business on Friday, he added.

In anticipation of the demand for the stamp, the postmaster said he already has placed a second order for 20,000. The first allotment of 20,000 has been received. The department expects record-breaking sales of the stamp and initial supplies may be exhausted quickly.

52 Employees Appear For Utility Golf Event

Fifty-two employees of the second division of the Manufacturers Light & Heat Co. took part in the sixth annual company golf tournament Saturday at Highland Country Club in Glenmoor and Pleasant Hills links on Route 2 near Pughtown.

Thomas Ridge of Carolina Ave., Chester, division superintendent, was host.

Bob Wasser of the Pittsburgh General Office won the championship trophy. Dave Gumpert of Washington, engineer, was runner-up, and Homer Ferringer, foreman at Brookville, Pa., was third.

Commemorative mugs of the occasion and several other awards were presented. Refreshments were served at the Ridge home of Mrs. R. J. G. Day and Miss Cynthia Barnhart.

One Of 2 Boys Given Probation For Thefts

An East Liverpool boy, 15, was given probation and hearing for another was continued by Juvenile Judge Louis Tobin Monday in connection with the theft of money from pocketbooks at Lake Marwin and a transistor radio from a Walnut St. apartment. Both reside in Pleasant Heights.

The one was placed on probation for the theft of the money and the hearing for the other youth, also 15, was continued to Thursday so that both parents can be present.

A third youth had been implicated but was exonerated later, Juvenile Officer James Miller said.

55th Annual Inspection Held By Lisbon Eastern Star Unit

Mrs. Virgil Edgerton of Salem, deputy grand matron of District 13, was in charge of the 55th annual inspection of Iva Chapter, order of Eastern Star, Saturday evening at the Masonic Temple in Lisbon with 157 members and guests registered.

Mr. and Mrs. Glen Conn, worthy patron and matron, presided and introduced the following guests:

Mrs. Edward Preston of Leesville, past grand matron and grand trustee of the Grand Chapter of Ohio; Mrs. LeVerne Hahlen and Mrs. Franchon Lihner of Homeworth, grand representatives, respectively, of Illinois and Nebraska; Mrs. Elizabeth Wallace of Canton and Bruce Pelley of Hanoverton, District 13 officers; James Wilson of Hanoverton, worshipful master of Sandy Valley Lodge, and 12 matrons and 10 patrons of district chapters and 15 past matrons and seven past patrons of Iva Chapter.

Pink dogwood was used in decorating the chapter room, arranged by Mr. and Mrs. Gilbert Marshall. Baskets of dogwood hung suspended from long, pink taffeta streamers at each window and centered the frame of the front wall, with a large basket in front of the stage.

Mrs. Ed. McKee was chairman of the refreshment committee for the reception in the diningroom. A collection of musical cups and saucers, belonging to Mr. and Mrs. Conn, and which were filled with miniature spring flowers, formed table decorations.

The annual Mother's - Father's Day program for residents of the Columbiana County Home was presented by the Lisbon Lionettes Sunday in the new chapel room and again for the patients of the hospital unit.

Highlight of the entertainment was "The Spaghetti Song" by Marlene Hahn and Carol Krause. Other guests of the Lionettes group were Edmund Moore, Kenneth Morris of Lisbon, Mrs. Carson of East Liverpool and the mothers of the girls, Mrs. Mary Hahn and Mrs. Delores Krause of Lisbon.

Following a tour of the home, each resident received a candy bar, doughnuts and rolls, oranges and gum.

Thirty-nine members of the First Christian Church went to Bethany College of Bethany, W. Va., Sunday for a conducted tour of the campus and dinner at the college cafeteria.

Mrs. Richard Mason, Mrs. Fred Reese, Mr. and Mrs. Nels Scheel, Mr. and Mrs. Edgar Kirk, Mr. and Mrs. Don McClintock, William Guy and Mr. and Mrs. Frank Guy furnished transportation for the young people making the trip.

Drunk Driver Counts Bring Terms For 2

East Liverpool and Wellsville motorists received identical sentences of three-day terms in the County Jail and fines of \$200 and costs when they pleaded guilty today before Municipal Judge Samuel M. Chertoff on charges of operating autos while under the influence of alcohol.

The local defendant was Joseph Anderson, 52, of Clark St., cited at 3 a. m. today on Route 7 by the State Highway Patrol. Father of eight, Anderson said he is employed at the Midland Works of the Crucible Steel Co.

The identical penalty was imposed on John Thomas Wiley, 1418 Commerce St., Wellsville, also cited by the patrol on Route 7 last Thursday. Wiley's case had been continued from Friday when he asked an opportunity to obtain counsel. However, he returned to court this morning without an attorney.

Wiley told the judge he is employed at Waterford Park Race Track. Although he said he "blacked out" before a two-car crash, he said he had consumed only "one beer."

In both cases, the court also ordered a 90-day suspension of the defendant's operator's permits.

Anderson then asked if he might have "the privilege of driving my car to and from work."

"You just said the magic word," the judge replied. "Driving a car is a privilege, not a right. You will have to find some other way to get to and from work, Mr. Anderson."

Group In LaCroft Airs Term Plans

Plans for the new school term in the fall have been discussed by officers of the LaCroft Parent-Teacher Association.

Officers for 1964-65 are Thomas Scott, president; Glenn Rutledge, vice president; Mrs. Donald Thorne, secretary; and Mrs. Thomas Schultz, treasurer.

Scott has appointed new committees. On meeting nights next fall, teachers will be in their rooms at 7:15 to confer with parents, and business will begin at 7:30. There will be a room available for pre-school age children.

Milton Kountz has asked parents and others interested to report to the school Wednesday afternoon to help paint and clean up the playground.

Delegates to the City Federation are Mrs. Donald Karcher and Mrs. Jack Poole.

Vocal Group Airs Routine Business

Routine business was conducted at the meeting of the East Liverpool SPEBSQSA Chapter Monday night at the Elks Club ballroom.

Sam Wolfe, president, presided, with Bob Moore, secretary, reading the minutes.

A note of thanks was read from Charles Brooks of Burbank, Calif., for the farewell gift the group presented him. He was a member of The Colonials Barbershop quartet.

It was announced members may take guests to the next session of the area chorus June 8 at Toronto.

Glenn Woods directed singing. The double-quartet will practice at 7:30 p. m. preceding next Monday night's session. The Executive Board will meet afterwards.

As a salad to serve with a cheese fondue or souffle, you'll find tomato aspic with marinated artichoke hearts fills the bill.

Landis' Pinch Homer Triggers White Sox Victory, 7-4

Freehan Sparks Tigers; Hall And Oliva Pace Twins; Bosox Win

By MIKE RATHET
Associated Press Sports Writer
Jim Landis, the hitting man's Jim Brosnan, has closed the book on his squabble with the Chicago White Sox and started to author an impressive batting average.
Landis, only four days removed from the White Sox doghouse, led off the seventh inning Monday night with his first homer of the season, a pinch-hit job that triggered Chicago's American League leaders to a four-run rally and a 7-4 victory over Kansas City.
It was the fourth hit in seven at-bats for Landis since a peace parley with Manager Al Lopez settled a dispute that threatened to wind up in a cause celebre almost as big as the one that cost pitcher-author Brosnan his job with the club.
Landis got off on the wrong foot this season when he had an argument with General Manager Ed Short over fees for television appearances. Landis wound up asking to be traded. Lopez countered by keeping the 30-year-old outfielder on the bench.
Up until last Thursday, Landis had been to the plate only five times. Then Lopez and Landis, who hit .272 when the White Sox won the pennant in 1959 but only .228 and .225 the last two years, got together to work out the problem.
"I felt a little odd about being out for so long," said Landis after lifting his average to .417 with the homer. "But I wasn't worried about getting out of shape, because I'm thin anyway and I was taking batting practice every day."
While Landis boosted his average, Minnesota rookie Tony Oliva raised the league's leading average to .391 with a 3-for-4 performance and Jimmie Hall stroked four hits in a 16-hit attack that carried the Twins to an 8-1 triumph over the Los Angeles Angels.

Realtors Rip Central, 11-1

Righthander Joe Massey pitched the Realtors into first place in the Colt League Monday, beating Central Service, 11-1, on a three-hitter.
Enroute to the victory, Massey struck out 12 batters. He allowed only singles to Clendenning, Flasco and Brewer of Central. Clendenning, who fanned two, was the loser.
The victory was the second straight for the Realtors, who came on late to beat Riverview Florists, 2-1, in the opener on Sunday. Central lost its second straight.
Golden of the Realtors slammed a pair of triples, and Landis hit a double to feature the 12-hit attack. Quotot had three singles, and Crable had a pair.

Elsewhere, Bill Freehan drove in two runs with a homer and double as Detroit whipped Baltimore 5-3 and Boston turned errors into three unearned runs and a 6-5 victory over Washington.
Cleveland and the New York Yankees were not scheduled while the entire National League was idle.
Landis, batting for starter Gary Peters, tied the score 3-3 and the White Sox took it from there. Al Weis then singled, moved around to third on a balk and an infield out and scored the tie-breaker on Pete Ward's single before Ron Hansen wrapped up the outburst with a two-run homer.
Ward and J. C. Martin also homered for Chicago while Peters brought his record to 5-2 with Hoyt Wilhelm's relief help.
Oliva scored three runs for the Twins and Hall drove in three in support of Camilo Pascual, who brought his record to 6-2 with a four-hit, 10 strikeout performance. Oliva supplied the game's only homer, a two-run shot in the first inning that was actually all Pascual needed.
Freehan doubled home a run in the first inning and scored on a single by Don Demeter, then homered in the fourth as the Tigers chased Steve Barber. Barber, a 20-game winner for the Orioles last year, failed in his fifth attempt to post victory No. 1. Ed Rakow was the winner, limiting Baltimore to two hits over the final 5-1-3 innings.
The Red Sox broke a 3-3 tie in the sixth when Bob Tillman drove in the lead run with a double following a single by Carl Yastrzemski and an error by Don Zimmer that let Roman Mejias reach base. A walk, and Don Blasingame's error and a single by Ed Bressoud scored the other two runs. John Kennedy homered for the Senators.

Palmer To Help Honor Alma Mater's Stars

WINSTON-SALEM, N.C. (AP) —Golfer Arnold Palmer returned to his alma mater Monday night to help honor outstanding Wake Forest College athletes for 1963-64.

"There are no major or minor sports," Palmer told the 400 dinner guests. "The way a man participates in a sport makes it major or minor."

Basketball - baseball star Frank Christie received the school's inaugural award as the top athlete of the year and he and the other athletes received Palmer's personal congratulations.

Ike And Palmer Tee Off In Golf Charity Match

By WILL GRIMSLEY Associated Press Sports Writer ARDMORE, Pa. (AP) — Back before the turn of the century, President William McKinley, holidaying in Hot Springs, Va., created a national crisis by suggesting that he would like to play a round of golf.

"Horrors," was the shocked reaction of his advisers. "It's too undignified. It could tear down confidence in the administration."

Some 65 years later — today over the renowned Merion Golf Club — Gen. Dwight D. Eisenhower, the most avid of America's golfing presidents, takes to the tee in a charity exhibition match with Masters Champion Arnold Palmer, veteran pro Jimmy Demaret and dancer Ray Bolger. Nobody is shocked. People paying \$50 and \$100 for admission to the 18-hole benefit for the Heart Association of Southeastern Pennsylvania are just curious.

Does Ike slice or hook, like the weekend duffer? Does he blow his stack when he flubs a three-foot putt? Does he mutter an expletive when he leaves a ball in the sand?

These were questions never answered during the eight years Eisenhower was president of the United States — 1952 through 1960. The White House press was

not allowed to watch him play. His score was classified information like the atom bomb or the moon shot. People discussed it in muffled whispers.

Now everybody will know. The former chief executive, a hale 73 despite a heart attack and two other illnesses during his years in the White House teams with Palmer against Demaret and Bolger.

The match starts at 1 p.m. (EST).

Eisenhower was certainly the most-dedicated if not the best golfer ever to occupy the White House. To relax from pressures of his office, he took frequent

golfing breaks at Augusta, Ga., site of the Masters tournament. He played every chance he got. Golfing cronies said he was a fierce competitor who shut himself off from the rest of the world when he teed off. He shot as low as 79 and as high as 95. His big weakness, friends said, was impatience. He played too fast, putted without studying his assignment. But he loved it all.

It wasn't always easy for chief executives to indulge in the fairway sport without drawing criticism.

When McKinley wanted to play in 1897, shock reverberated through the halls of Congress.

The Cabinet debated the propriety of the action. The Boston Evening Record published a copyrighted story that nothing was wrong with a president playing golf as long as he was shielded from "curious onlookers."

Fire Safety Device Due In All Ford Stock Cars

CHARLOTTE, N.C. (AP) — Ford racing mechanic John Holman says a fire safety device which may have prevented Glenn (Fireball) Roberts from being critically burned Sunday will be installed in all Ford stock car racers.

Charlotte Memorial Hospital reported early today that the 33-year-old Daytona Beach, Fla., veteran stock car driver was "holding his own" and "doing as well as can be expected." Doctors said the 6-foot-2, 195-pound driver was responding to treatment.

Holman said Monday that the device, similar to one the Army uses in tanks, will be installed "before our race cars go to another track."

"We're going to install a carbon dioxide extinguisher in all the cars where, when triggered either automatically or manual-

ly, it will submerge the entire inside of the car with foam." Holman said his cars will be equipped with the device for the June 7 Atlanta 400. He said he did not know much it will cost or weigh.

Fellow drivers, meanwhile, have tried to piece together circumstances surrounding Sunday's three-car fiery smash-up early in the World 600-mile stock car race at Charlotte Motor Speedway.

"Fireball tried to avoid hitting me and spun," said Darel Dieringer of Charlotte. "He knew he was going to crash." Dieringer recalled how he was running behind the cars of Junior Johnson of Ronda, N.C., and Ned Jarrett of Camden, S.C., when "it looked like suction" caused the two to spin wildly. "I did not see the two touch," Dieringer said.

'Fast Track' Looming For '500' Open

INDIANAPOLIS (AP) — The track may be just as fast for the \$70,000 "500" Festival Open Golf Tournament starting Wednesday as for the Memorial Day auto race which interrupts it Saturday.

Booming shooters like Jack Nicklaus and George Bayer may have to ride the sun-baked, par 71 Indianapolis Motor Speedway golf course with governors on their drivers.

Nicklaus, top PGA money-winner, and three former Speedway champions head a cast of 150 pros seeking one of the year's more substantial top purses, \$12,000.

Masters champion Arnold Palmer again has elected to skip this unique meet—certainly the first ever to delay its final round a day while 250,000 speed-minded patrons watch a 3 1/2-hour roadster chase.

They have nice hard retaining walls to keep the snarling metal monsters from going out of bounds in Saturday's big race.

The 6,467-yard golf course which meanders partly into the vast infield of the Speedway's 2 1/2-mile oval is another matter.

The tourney directors, at the suggestion of the pros, narrowed the fairways to 30 yards and let the rough grow to three inches.

But, with the turf as dry and as hard as it is, it probably will make little difference where the shots land for the more able gunners, among them 21 of the top 25 PGA cash collectors. Some may drive the greens on several par 4 holes.

The 72-hole record is a 20-under-par 264 by Billy Casper, winner two years ago on rounds of 66-67-67-64.

Casper is back, along with two-time winner Doug Ford (1960 - 1961) and last year's titlist, Dow Finsterwald.

U.S. Open Tests Continue

Souchak Fails To Qualify

By JIM BECKER
Associated Press Sports Writer

Just when burly Mike Souchak, the old Duke football place-kicker, thought he had his golf game back in shape after a two-year slump he got thrown for a loss.

Mike was the biggest casualty as a field of about 2,000 started on the long qualifying trail to the U.S. Open at Washington, June 18-20.

Local qualifying rounds over 36 holes were staged at 54

courses Monday. Three more tests will be held today, all in the metropolitan New York area.

A total of 428 golfers will advance to the sectional qualifying rounds scheduled for June 8-9.

Twenty-one players, including defending champion Julius Boros and recent champions Arnold Palmer, Jack Nicklaus, Bill Casper and Gene Littler, are exempt from all qualifying, and 45 others were allowed to skip the local test.

Souchak's failure was the most noteworthy. Another was Bill Hyndman III, Walker Cupper and former runner-up in both the U.S. and British amateurs. He missed at Ambler, Pa.

In Phoenix, Frank Stranahan,

former British Amateur champion and veteran pro tourist, failed to qualify when he soared to 73-86-159.

Nearly all other name players advanced.

Big Mike had expected to have little trouble. He tried at Memphis, scene of the Memphis Open last week which he won with a 72-hole score of 270, lowest on the tour this year.

That was Souchak's second victory in five weeks, and put him sixth on the money list with more than \$22,000.

It had been a long dry spell for Souchak since he was the halfway leader in the 1960 Open and a factor in 1961. Souchak finished three strokes back of the leader in both those years. But the best he could do Mon-

day was 73-74-147. There were 39 qualifying spots at Memphis, but it took 145 to get one.

Gay Brewer, tied for fourth in the Memphis Open, led the big field with 67-68-135.

Among the others who qualified there were: Jerry Pittman, 136; Fred Haas, Ken Venturi and Bill Collins, 138; Al Besselink and Bruce Devlin of Australia, 139; Joe Campbell, 141; Bill Dunk of Australia, 142; Phil Rodgers, Dave Thomas of England and Bob Duden, 143; Rex Baxter and Bob Verwey of South Africa, 144.

Rohrer, Banfield Take Golf Event At Country Club

E. B. Rohrer and Dr. H. F. Banfield finished first in the best ball, medal play event in Country Club golfing Saturday, with a score of 61.

Tied for second with 62's were Bob Patterson and Bill Hocking Jr., and Dr. R. J. Kinsey and R. T. McDaniel. In the second division, Norman Nicely and Okey Ludwig led with 70.

In Sunday's selective nine holes, M. W. Thompson and Dr. H. F. Banfield tied for first with 31's, while Bob Bowersock and Jim Laughlin tied for second with 32's. J. M. Roberts led the second flight with 30.

The opening golf and bridge luncheon is slated Wednesday for the women. Golf will feature 18 hole medal play, and nine hole medal play. There will be putting prizes for each event.

Mrs. J. N. Porter Jr. and Mrs. D. E. Beatty are golf prize chairmen, and Mrs. Harry Thiemecke, Mrs. William M. Christopher, Mrs. William Pomeroy and Mrs. Kenneth Koos are bridge hostesses and members of the luncheon committee.

U.S. Open Tests Continue

Souchak Fails To Qualify

By JIM BECKER
Associated Press Sports Writer
Just when burly Mike Souchak, the old Duke football place-kicker, thought he had his golf game back in shape after a two-year slump he got thrown for a loss.

Mike was the biggest casualty as a field of about 2,000 started on the long qualifying trail to the U.S. Open at Washington, June 18-20.

Local qualifying rounds over 36 holes were staged at 54

courses Monday. Three more tests will be held today, all in the metropolitan New York area.

A total of 428 golfers will advance to the sectional qualifying rounds scheduled for June 8-9.

Twenty-one players, including defending champion Julius Boros and recent champions Arnold Palmer, Jack Nicklaus, Bill Casper and Gene Littler, are exempt from all qualifying, and 45 others were allowed to skip the local test.

Souchak's failure was the most noteworthy. Another was Bill Hyndman III, Walker Cupper and former runner-up in both the U.S. and British amateurs. He missed at Ambler, Pa.

In Phoenix, Frank Stranahan,

former British Amateur champion and veteran pro tourist, failed to qualify when he soared to 73-86-150.

Nearly all other name players advanced.

Big Mike had expected to have little trouble. He tried at Memphis, scene of the Memphis Open last week which he won with a 72-hole score of 270, lowest on the tour this year.

That was Souchak's second victory in five weeks, and put him sixth on the money list with more than \$22,000.

It had been a long dry spell for Souchak since he was the halfway leader in the 1960 Open and a factor in 1961. Souchak finished three strokes back of the leader in both those years.

But the best he could do Mon-

day was 73-74-147. There were 39 qualifying spots at Memphis, but it took 145 to get one.

Gay Brewer, tied for fourth in the Memphis Open, led the big field with 67-68-135.

Among the others who qualified there were: Jerry Pittman, 136; Fred Haas, Ken Venturi and Bill Collins, 138; Al Besselink and Bruce Devlin of Australia, 139; Joe Campbell, 141; Bill Dunk of Australia, 142; Phil Rodgers, Dave Thomas of England and Bob Duden, 143; Rex Baxter and Bob Verwey of South Africa, 144.

Rohrer, Banfield Take Golf Event At Country Club

E. B. Rohrer and Dr. H. F. Banfield finished first in the best ball, medal play event in Country Club golfing Saturday, with a score of 61.

Tied for second with 62's were Bob Patterson and Bill Hocking Jr., and Dr. R. J. Kinsey and R. T. McDaniel. In the second division, Norman Nicely and Okey Ludwig led with 70.

In Sunday's selective nine holes, M. W. Thompson and Dr. H. F. Banfield tied for first with 31's, while Bob Bowersock and Jim Laughlin tied for second with 32's. J. M. Roberts led the second flight with 30.

The opening golf and bridge luncheon is slated Wednesday for the women. Golf will feature 18 hole medal play, and nine hole medal play. There will be putting prizes for each event.

Mrs. J. N. Porter Jr. and Mrs. D. E. Beatty are golf prize chairmen, and Mrs. Harry Thiemecke, Mrs. William Christopher, Mrs. William Pomeroy and Mrs. Kenneth Koos are bridge hostesses and members of the luncheon committee.

Out Of The Air

By ALAN GILL

Rita Lives From Hour To Hour

Each September, in a suburb of Rome called Ariccia, hundreds of Italian youngsters compete in a televised talent contest called "Rally of the Unknowns."

The 1962 competition was by all odds the most memorable, though, because it propelled a sparrow-sized urchin named Rita Pavone into a kind of tumultuous renown. Italians fell immediately in love with the saucer-eyed, freckle-faced, tousled-haired imp who would strut on stage in shirt, trousers, suspenders and boots, rocking and rolling and belting out a song in a voice that would raise a blood blister on a hearing aid.

ARICCIA is an important word in Rita's young life. (She's 18.) For the impresario of that talent Olympics, Teddy Reno, is now her manager, and Ariccia's mayor harbors so much gratitude to the place for bestowing Rita upon the world that he has given some nice woodland there to the Pavone family.

(They are building a villa among its pines just now.) Within months of the contest, Rita's records were outselling everything else in sight and she was appearing frequently on Italy's TV counterpart to the Sullivan show, "Studio 1," surrounded by a chorus of teen-aged kids in high collars and fittingly known as "The High-Collar Kids."

IN HER CONCERT appearances, teen-agers would fill the boxes and balcony while their elders, who generally disdain rock 'n' roll, are crammed into the orchestra. At the end of each performance, Rita invites the teens up on the stage for some twirling; and a few of the oldsters are sure to come along for the ride. Small children cry "Rita! Rita! Rita!" too; and it is only for Rita's performances that the local police permit kids under eight into the clubs and theaters.

In the northern Italian town of Modena last summer the soccer stadium was turned over, for the first time, to a rock 'n' roller. OUT OF a population of 70,000, more than 40,000 people jammed into the stands to see Rita.

In Naples, where she was to autograph records in a large shop, more than 10,000 people came running. The shop window broke. Police threatened the crowd with water hoses.

Rita's arrival went unnoticed, however, since the top of her head barely reaches to the shoulders of a crowd, despite the boots.

Besides, she thought it was a political meeting. She asked a man, "What's this for?" "Rita Pavone," he said.

But his double-take was too long in coming. She was already out of reach.

AFTER MOST performances, the police, fearing riot, will not allow Rita to leave for two hours.

And once, after she had mentioned in a TV interview how a crowd had pulled the buttons off her shirt, thereby diminishing her supply of buttons, thousands of the things came in from all over Italy — enough to fill a small room to knee level.

Rita? To a visitor, she seems thoroughly unspoiled by it all. She has not lost her child's giggle. She shows you her latest acquisitions in stuffed animals — she must have 70 by now — and tells you about her wolfhound, Whisky.

Toward the end of a heart-rending song like "Cuore" ("Heart"), she can loose a flood of tears down her cheeks, as she thinks of Whisky lying dead at home.

SHE'D JUST seen Sammy Davis Jr. perform in a club. ("He moves very well.") She worships Grenda Lee, adores Ray Charles, thinks America is nicer even than the movies had led her to believe, wants to see Hawaii, hates studying, isn't interested whatever in eating, worries about her little brother a bit and about getting married one day, prefers huge concert performances because of the enthusiasm of the crowds but fears the "impoliteness" of an occasional member of the mob.

She knows nothing about music, she says. She never studied it. She'd like to learn guitar, though, because the piano takes 10 years to the guitar's three and you can take a guitar with you.

WHAT WOULD RITA like to be doing, the visitor asks, five years from now? "I don't know," she says. "I can't think ahead. I live hour by hour."

"I don't know whether to sing this" — and she hums a wedding march — "or this" — and she hums "Where Will I Be a Thousand Years From Now?"

Fast-growing eucalyptus seedlings are planted on dunes in the Sahara Desert, then petroleum is sprayed around them to stabilize the sand. The maturing trees anchor the dunes permanently and yield timber, resins and oils.

Sgt. York Improves

At Tennessee Hospital

NASHVILLE, Tenn. (AP)—Medal of Honor winner Sgt. Alvin York was listed in very satisfactory condition today at Veterans Hospital, where he was admitted Friday for internal hemorrhaging.

Doctors stopped the bleeding several hours after the 76-year-old World War I hero was rushed here by ambulance but said he must remain in the hospital several days.

York lives on a mountain farm at Pall Mall, Tenn., about 140 miles northeast of here. He has been bed-ridden about 10 years and has been in and out of hospital a number of times.

Arrest Of 20 Solves

38 Cleveland Crimes

CLEVELAND (AP) — Police say that arrest of 15 men and five juveniles has resulted in solving 38 crimes, including 19 robberies on the east side.

All have been charged and some are awaiting grand jury action. Among the crimes were burglaries from trucks and truck-loading docks in the flats area and near west side in which the total loot was around \$10,000, police said. Authorities said the burglaries began in mid-1962 and ended in March.

The professional basketball individual single-game scoring record was set by Wilt Chamberlain on March 2, 1962, at Hershey, Pennsylvania, when playing with the Philadelphia Warriors he scored the incredible total of 100 points as his team beat the New York Knicks 169 to 147.

'Dick Van Dyke Show' Gains 5 Emmy Awards

HOLLYWOOD (AP) — CBS-TV, with 13 awards — five of them via the "Dick Van Dyke Show," — is big winner today of the 16th annual television Emmy Awards.

"It sure pays to boycott," said the handsome Van Dyke, clutching his first Emmy for best actor. "I bet CBS is sorry now they started this whole thing — or maybe they're glad."

Van Dyke was referring to the CBS and ABC boycott of the Emmy show Monday night. Both networks had charged NBC-TV with bloc voting in previous awards.

NBC, the only non-boycotter, took second with nine Emmies and ABC took third with five, four of them won by the John F. Kennedy documentary "The Making of the President, 1960."

Master of ceremonies Joey Bishop commented on the NBC-TV telecast: "If NBC drops out of this thing, there will be immediate dancing."

Bishop had opened the show with, "Welcome to 'greatest fights of the century.'"

The Van Dyke show also won Emmies for best writing, best directing, best comedy and best actress — Mary Tyler Moore.

The other CBS winners were

"The Danny Kaye Show" for electronic photography; best original drama — Ernest Kinoy for the "Blacklist" segment of "The Defenders;" best drama — "The Defenders;" best single performance by an actor — Jack Klugman in "Blacklist" of "Defenders;" best music — Robert Scheerer for "The Danny Kaye Show;" best variety show — "The Danny Kaye Show" and best variety performer — Danny Kaye.

The NBC winners were: Best news report — "The Huntley Brinkley Report;" best news commentary — "Cuba;" best art direction — Warren Clymer, "Hallmark Hall of Fame;" best cinematography — J.P. Peters for "The Kremlin;" best drama adaptation — Rod Serling for the "Bob Hope Anthology Series;" best supporting actor — Albert Paulsen, also for the Bob Hope series and best supporting actress — Ruth White for "Little Moon of Alban" on "Hallmark Hall of Fame."

"The Making of the President, 1960" was also for film editing best original music — by Elmer Bernstein — and best documentary.

The other ABC winner was "Discovery" — the best children's show.

Bringing Up A Family

Pupils Sent Back Unrehabilitated

You have heard and read of the epidemic of violent attacks by school children on teachers in New York City. Of course there have been scattered instances of such attacks for years, not only in New York, but also in other cities of the nation; and now and then, in sub-Dr. Garry Myers' urban and in rural areas. For the sake of discipline and prevention of undue exposure of teachers to such violence, the school authorities have the worst offenders suspended from school.

According to the newspapers, some are referred to the juvenile court and some others are sent to a hospital for mental and emotional observation.

Most of the offenders drift back to the schools, and the High School Principals Association of New York City has charged that the number of pupils returned from correctional institutions "before they are ready and with no supportive or rehabilitative program" has been rapidly increasing.

IMAGINE WHAT heroes some of these youths are among their classmates on returning to school after a mere lecture from the juvenile court, only to make still more trouble for the teacher. Chances are that most of these suspended pupils merely help, eventually, to swell the huge army of juvenile delinquents.

What New York City and most other big centers of population need is a new set-up for dealing with children suspended from school. They need a number of small detention homes to which these children would automatically be assigned for study and rehabilitation by able experts and teachers for a period long enough to make possible their readiness to return to school as reasonably good citizens there, and as persons fairly well-adjusted mentally and emotionally.

Perhaps small camps in outlying places would be better. At the present time, there is a widespread notion in our nation, especially among welfare workers, and some educators, that practically all children who openly defy or attack a teacher are mentally or emotionally disturbed. Some of them, undoubtedly, are but many of these children have never been adequately disciplined at home to respect the rights or other persons or to have regard for authority.

TALK TO ALMOST any public school teacher anywhere in the United States, in the slums, suburbs or country, who has taught for 30 or more years, and he or she will say that, during these years, the attitude of respect and obedience toward a teacher by school children has markedly declined. During this period, the practice of excessive permissiveness in the rearing of children has, with the blessing of many experts in this field, grown and become the dominant factor in parent-child relationships.

And who are the parents who, purposely, have most often practiced excessive permissiveness? Chiefly those of affluence, higher education and social prestige.

While more facilities for qualified school guidance and psychiatric personnel are desirable and should provide immediate help in this problem, there are more far-reaching points to consider.

In our large social order, parents in the upper brackets of education and social prestige tend to set the standards of child-rearing; and most of them live in the finer sections of the cities, suburbs, or other localities. When they stiffen home discipline, beginning in the nursery, and bring up their children in the basics of respect for the rights of others, this disgraceful problem in the schools should diminish in time.

Fr. Cunningham Honored By 60 In Testimonial Fete

About 60 attended a testimonial dinner for Fr. John Cunningham, chaplain of Carroll Council 509, Knights of Columbus, Sunday evening at the Travelers Hotel, sponsored by the council.

The event also marked the 10th anniversary celebration of Fr. Cunningham's ordination into the priesthood May 1, 1954, in Youngstown.

Fr. Cunningham, who has been an assistant at St. Aloysius Catholic Church since August 1961, has been council chaplain for two years.

On behalf of the council, Ralph McNicol, grand knight, presented Fr. Cunningham with a tape recorder.

Speakers included Fr. Thomas McCarthy, another assistant pastor at St. Aloysius, James Slaven, William Sherry, William Leser, Matthew Kuzmich and John E. Johnston.

House Approves Fund For New Hospitals

WASHINGTON (AP) — The House has passed and sent to the Senate a bill authorizing \$1.4 billion for construction and modernization of hospitals and other health centers during the next five years. Except for the provision for modernization, the bill is a simple extension of the old Hill-Burton Act.

Rep. Frances P. Bolton, R-Ohio, told colleagues here Monday that "no program that we have passed has meant so much to the people of this country as Hill-Burton."

Manslaughter Charge Filed Against Woman

WASHINGTON COURT HOUSE, Ohio (AP) — Fayette County Sheriff Don Thompson has filed charges of manslaughter against Sandra Wilt, about 25, in the death of a 28-year-old man. The victim, Robert Lee Williamson of nearby Millersburg, died Sunday night in University Hospital in Columbus.

Authorities said Miss Wilt struck Williamson on the head with a baseball bat after a quarrel Saturday night.

Action Seen Likely Against Cyrus Eaton

HALIFAX, N.S. (AP)—A National Revenue Department official says an application "probably will be" made in Probate Court to remove Cleveland, Ohio, industrialist Cyrus Eaton as executor of his sister's \$356,600 estate. Gordon S. Cowan made the statement Monday after Eaton failed to inform the court if he has deposited \$111,322 in succession duties and death taxes claimed on the estate.

His sister, Mrs. Florence Eaton-Kaye of Victoria, B.C., died in Rome in 1958, leaving Eaton the bulk of the estate with the provision he pay all death taxes, funeral expenses and succession duties.

Board In Cleveland Grants UFM Hearing

CLEVELAND (AP) — Representatives of the United Freedom Movement, a federation of more than 30 civil rights groups, will get its long-sought chance to discuss school racial problems before the Cleveland Board of Education.

The board, in an about-face Monday, agreed to hear the UFM at a future session at the request of William F. Boyd, a board member and a Negro.

In denying the UFM request in the past, board president Ralph McAllister claimed the group's past actions were "irresponsible."

Ashtabula Will Buy Shipyard For 150,000

ASHTABULA, Ohio (AP) — The city of Ashtabula will buy the American Ship Building Co.'s idle shipyard here for \$150,000 for conversion to a marina. The plan was approved by Council Monday night.

The city will sell \$75,000 worth of bonds and expects to receive \$25,000 in state and federal funds for the project. Proponents say the bonds can be paid off from rental fees and lease income. The shipyard has been idle for several years.

Use boiling water when you are cooking fresh tongue and add, along with a sliced onion and carrot, a few bay leaves, peppercorns, cloves and allspice.

U.S.-Romania Talks Hinted As Test Case

WASHINGTON (AP) — When, over a year ago, reports first reached the United States indicating Communist Romania was striving for independence from Moscow, Washington foreign policy strategists pricked up their ears.

The signs were numerous, but two were outstanding: Romania's unqualified neutrality in the Soviet-Red China quarrel; Romania's firm resistance to Moscow-dictated planning of the economy of the entire Communist bloc.

All this was interpreted here as unmistakable proof of the great weakening of the formerly undisputed Soviet control of Eastern Europe. In addition, Washington thought Romania's stance might suggest a breach in the Iron Curtain.

At about the same time American spokesmen began to popularize the thesis that the United States should treat different Communist countries differently, depending on their degree of independence from Moscow.

The basis of this philosophy was simple: It is in the American interest that the Eastern European nations be encouraged to exercise the greatest possible degree of such independence.

The first practical result of this new thinking is the current series of economic talks with Romanians in Washington. It could be a test case, officials are hinting, and similar talks may follow with other Eastern European nations.

The very fact that Washington has invited a high-level government delegation from a Communist country is probably more significant than what is discussed.

The agenda is limited. The Romanians want more trade both ways. They are interested in buying the blueprints, and perhaps the machinery, for a modern synthetic rubber plant and want to be represented here by an ambassador instead of the minister now heading their diplomatic mission. The U.S. Legation in Bucharest would be elevated simultaneously to embassy rank.

The United States agrees with these objectives in principle. Romania, thanks to its oil resources, is probably the best off of all the Red bloc countries, and it can pay for whatever it buys. The exchange of ambassadors would come as a symbolic gesture, provided the talks end successfully.

Romanian trade with the non-Communist world is increasing: From 22 per cent of Romania's total foreign trade in 1958 to 33 per cent in 1962. Trade with the United States is insignificant: \$800,000 in U.S. exports and \$600,000 in imports in 1962.

Ohio Man Faces Sentence, Fine In Bomb Mailing

CINCINNATI (AP) — Courtney Cornwell faces sentencing June 4 following conviction of mailing a dynamite-rigged radio bomb to his brother, John, 29, in Asheville, N.C., last fall.

The 33-year-old Middletown man appeared mute as he was found guilty Monday by a U.S. district court jury of seven women and five men. The maximum sentence is 20 years in prison and or a fine of up to \$10,000.

The radio contained enough explosives to blow up the apartment building where John Courtney lived, the prosecution said. It was mailed from Middletown. John became suspicious of it and called police when he noticed the knobs would not turn.

The government contended there was ill feeling between the brothers because John allegedly turned Courtney's wife against him. The brothers and their mother, Mrs. Joyce Berry, of Asheville, denied this during the trial.

Born Into Slavery, Man Claimed At 118

CINCINNATI (AP) — Richard Davis, born into slavery at Roanoke, Va., before the Civil War, died Monday. He reportedly was 118 years old.

Davis had lived in Drake Hospital here since 1958. He was a tenant farmer in Lancaster, Ky., 50 years before coming to Cincinnati eight years ago from Boyle County, Ky.

48 Get Draft Exams

LISBON — Forty-eight Columbian County men left Monday morning for Cleveland for pre-induction physical exams, completing the May call, according to Mrs. Elaine Griffith, clerk of Draft Board No. 16. The June call is for eight for induction on June 9 and 41 for physicals on June 22.

OFF THE RECORD

"Rollo, I've been telling you for an hour that the doctor will see you in a minute."

Today In History

By The Associated Press

Today is Tuesday, May 26, the 147th day of 1964. There are 219 days left in the year.

Today's highlight in history:

On this date in 1868, the only American president ever to be impeached, Andrew Johnson, won his fight in the Senate, the impeachment forces losing by a single vote.

On this date

In 1688, the first meeting of the New Jersey Colonial Assembly was held.

In 1790, Tennessee was organized as a territory.

In 1805, Napoleon was crowned king of Italy.

In 1942, Nazi armies opened drives on Stalingrad and the Caucasus.

In 1946 normal service was

restored on railroads following a nationwide strike and the government ended its control of the lines.

Ten years ago—Final returns in the Irish parliamentary elections showed Prime Minister Eamon de Valera's Fianna Fail party had failed to win a majority.

Five years ago—Israeli Foreign Minister Golda Meir declared that Israel was astounded at the failure of the United Nations to enforce free navigation through the Suez Canal.

One year ago—Fears were expressed for the health of Pope John XXIII who suffered a recurrence of hemorrhaging.

Fifty years ago in the United States, the median age at first marriage for men was 25.1 and for females 21.5. Today the median age at which men are married is 22.7 years, and for women 20.3 years.

Junior Editors Quiz on
ATOMS

QUESTION: Why don't the whirling electrons inside an atom crash into the nucleus?

ANSWER: The structure of an atom is something like our solar system (1). The sun pulls at the earth through the force of gravity, but the earth doesn't fall into it because all the time it is swinging around in an orbit. When things are swung rapidly around a center, they tend to fly outward; because of "centrifugal force." That is why water in the bucket the boy is swinging doesn't fall out. But gravity prevents Earth from flying away, as the boy's string holds back the bucket. Inside the atom, the heavy central nucleus has a positive charge of electricity; the much smaller electrons, whirling around it at terrific speed, have negative charges. These opposite charges attract each other, but centrifugal force keeps the electrons away. In this way electrons keep whirling around, like the hydrogen atom at right, first shown with the electron making a few turns around, then more, and finally so many that its revolutions make a kind of round shell, even if an atom is mostly empty space. It has been calculated that an electron can dash around a nucleus no less than 7 billion times every second.

FOR YOU TO DO: Try swinging a bucket half full of water—but do it out of doors.

Sharon Andersen of Muskegon, Mich., wins this week's grand prize of Compton's Pictured Encyclopedia, for this question. Mail yours on a postcard to Junior Editors, in care of The Review and you may win the weekly prize or the daily prize of Compton's Illustrated Science Dictionary plus \$10 cash.

Senate Reform

★ ★ ★ ★ ★
'Exclusive Club' Has Own Rules

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — Congress is distinguished by its grim determination to yield none of its privileges. It has two rules of conduct: One for itself and a different one for other people.

It is supposed to be the symbol of democratic government, but for years some of its members, mostly liberal senators, have urged Congress to do to itself what it requires others to do.

Now it's being urged anew as a result of the Bobby Baker case—but once again, embarrassed though it is, it will probably do nothing. This is what is meant:

Congress years ago passed a law, and later tightened and broadened it, to prevent conflict of interest among employees of the executive branch of government. Conflict of interest means mixing a government job with personal gain.

For example: Men appointed by the president to high position are required to get rid of stock they hold in companies dealing with the government. But this does not apply to members of Congress or its employees.

Liberal senators have proposed Congress pass similar legislation on itself, its own code of ethics to prevent conflict of interest. Congress has ignored them.

But from last November until March the Senate Rules Committee investigated the financial doings of Baker who, as secretary of the Democratic majority in the Senate, earned \$19,600 a year.

The investigation disclosed that while he held this job he had accumulated a business fortune of about \$2 million. He was called to testify but refused to.

While the full Senate authorized the committee to examine the financial or business interests or activities of any Senate employee, it did not authorize the investigation of any senator who might have been involved with Baker.

Baker was a fantastic wheeler and dealer. A report prepared by the committee staff last week, while attaching no criminal blame to him, accused him of "gross improprieties" in getting his job mixed up with private business.

But the report was harsh on the Senate, saying: "No amount of sophistry can relieve the Senate of the public criticism now directed against it."

The report suggested that to protect its name the Senate should write a code of ethics for itself. And it proposed the Senate and its employees be compelled to disclose publicly their outside income and its sources.

The Senate Republican leader, Everett M. Dirksen of Illinois, opposed this suggestion as he had similar ones in the past. He said, "I have never been in favor of making 'class B' citizens out of senators."

Another proposal in the committee report ran into broad opposition in the Senate: This would forbid a senator to intercede with any government agency on behalf of a corporation doing business with the government.

In a place like the Senate, where each member has tremendous power and is jealous of it, there is enormous resistance to changing any rules or diminishing any privileges. This is truly a club, and a very exclusive one.

The disclosures in the Baker case—the spectacle of this nimble young man, so close to many senators, becoming a millionaire while working for the Senate—was a shock to all 100 members.

It raises a natural question: If all this could happen with just one young man, what else is going on there? If the senators voted to disclose their outside income, the public would have both a check and an insight.

But the Senate, shocked though it is, has been through other unpleasant moments in its long history and will probably do nothing as it sighs and waits for this storm to pass away, thinking, perhaps, in time all things pass away.

Old Age Benefits Due 'Self Help' In West Virginia

CHARLESTON (AP) — Elderly West Virginians who get old age assistance checks will soon begin taking a personal role in a two-year experimental program designed to improve their medical services while freeing case workers of red tape.

Recipients, who are 65 and older, for the first time will begin personally supplying data on which eligibility for continued assistance is determined by the Department of Welfare. At present social workers obtain the information from the recipients.

"We're breaking some new trails nationally with this project," Mrs. Lelia H. Fay, director of the department's division of family services said. "I know of no other state trying this approach."

Under the pilot program, as the month for an annual case review arrives, each recipient will be required to complete personally a questionnaire covering eligibility factors and return it to the county welfare office.

An office worker then will use the information to determine continued eligibility, and the amount of payment.

As a safeguard against cribbing, a monthly 10-per cent sampling of cases will be conducted on a random statewide basis. This sampling also will decide the feasibility of the self-review idea.

"In the sampling, workers will follow through with the regular type review used previously, and compare information they obtain with that on the questionnaires the recipients have completed," Mrs. Fay said.

If there is an average error of less than 2 per cent over the two-year trial period, the self-review method will be considered valid.

Sharing Bid Eyed By Presbyterian Church Leaders

OKLAHOMA CITY, Okla. (AP)—The General Assembly of the United Presbyterian Church, U.S.A., traditionally insistent on separation of church and state, will be asked to consider the sharing of some secular public school courses with pupils from parochial schools.

It is a compromise proposed as a means of solidifying enough public support to get Congress to pass federal aid for public schools.

Its standing committee on the Church and society asks the commissioners to say the Church:

"Supports in principle a program of federal aid to public school systems that would encourage shared-time arrangements to permit students enrolled in private or parochial schools to obtain a portion of their education in public schools."

The assembly of a year ago suggested the shared-time concept should be studied.
